### **II.1.3. Information about a framework agreement or a dynamic purchasing system**

The notice involves a public contract

### **II.1.4. Information about framework agreement**

#### **II.1.5. Short description of the contract or purchase(s)**

Ringerike municipality shall heat Vang school and Huagsbygd secondary school in the Haugsbygd area with an environmentally friendly energy source and therefore invites tenderers to an open tender competition for the delivery of district heating to these buildings. Other existing buildings, such as Haug nursery, Haugsbygd artificial grass pitch, Haug church and private residences could be connected in the future. An expected expansion at Haug school and a desired future multi-purpose hall could also be connected. These possible connections are uncertain and no decision has been made on their establishment. The municipality cannot, therefore, commit to connection for these buildings, but an option to prepare capacity is included in the tender documentation.

The tenderer shall establish a contract with the landowner for the rent of a site and placement of a heat plant with the necessary access, infrastructure etc. The heat plant can be on private or municipal land, as agreed with the landowner.

More information on the procurement process and scope is included in annex no. 1 Requirement specification.

A site inspection/tender conference is planned for Monday 12.12.2016, at 13:30. Meet at: The artificial grass pitch at Haugsbygd. The junction between Hillehaugveien and Harehaugveien.

Register by Monday 12.12.2016, 9:00. Register via the Mercell portal, [www.mercell.no](http://www.mercell.no)

Tenderers are encouraged to submit any questions before the site inspection so that the contracting authority has the opportunity to prepare the answers before the site inspection /tender conference. Questions will be anonymous.
