2.1. Procedure

Title: 26-018 The procurement of a payroll system for Vinmonopolet - qualification

Description: A/S Vinmonopolet's (hereafter called the Contracting Authority) current payroll system is based on outgoing software that will not be further developed in the future.

Development in technology, rules and the company's needs leads to a desire for a more future orientated system for the payroll area. The contracting authority has therefore decided to procure a new payroll system that shall replace the current system.

Procedure identifier: 03b71b01-54fd-47f0-9347-37d6582c663a

Internal identifier: 2026/129

Type of procedure: Negotiated with prior publication of a call for competition / competitive with negotiation

The procedure is accelerated: no

Main features of the procedure: The objective of the procurement is to enter into a contract with one tenderer who can deliver a standardised, secure and modern cloud based payroll system that supports the Contracting Authority's needs within the wages area in both the short and long term. The contracting authority would like tenders from an implementation partner (main supplier) who has a concrete system supplier (sub-supplier). Implementation partner means the person who has resources that actually participate in the implementation of the payroll system. The system supplier means the person responsible for the delivery of the actual payroll system. If the implementation partner and system supplier are the same business, this can submit a tender on their own.
