The procurement is related to a project and/or programme financed by European Union funds:
no

II.2.14. Additional information

Section IV: Procedure

IV.1. Description

IV.1.1. Type of procedure

Award of a contract without prior publication of a call for competition in the Official Journal of the European Union in the cases listed below

- The procurement falls outside the scope of application of the directive

Explanation:

WWU has invested in SAP S/4 HANA and require hosting of the SAP S/4 HANA in a SAP certified public cloud platform. This platform and its provider must be SAP certified for all of the below criteria:

- have available at least 2 UK based availability zones,
- provide native Clustering for high availability,
- support large HANA instances above 4TB.

In addition to the technical requirements set out above WWU require a mature and SAP certified public cloud platform to operate its' recent investment in SAP S/4 HANA and meet very high levels of security. Integration with existing Microsoft 365 tool-sets including security, identity and mobility features is critical and WWU require the public cloud provider to support SAP HANA on large instances (above 4TB). WWU require that the public cloud platform must

also be suitable for non-SAP workloads to enable management and deployment of other hosting requirements. Microsoft is the only supplier with the technical capability to implement and fulfill the entire technical requirement.
