no

### **II.2.14. Additional information**

## **Section III: Legal, economic, financial and technical information**

---

### **III.1. Conditions for participation**

#### **III.1.1. Suitability to pursue the professional activity, including requirements relating to enrolment on professional or trade registers**

List and brief description of conditions:

The tenderer's registration, authorisations etc. Requirement: Tenderers must be registered in a company register, professional register or a trade register in the country where the tenderer is established.

— Company Registration Certificate

#### **III.1.2. Economic and financial standing**

List and brief description of selection criteria:

— Tenderers must have sufficient economic and financial capacity to implement the contract. Creditworthiness with no requirement for guarantees will be sufficient to meet the requirement.

— A credit rating based on the most recent financial figures. The rating must be carried out by a credit rating company with a licence to conduct this service.

If a tenderer has valid reasons for not being able to provide the documentation requested by the Contracting Authority, the tenderer can prove his economic and financial position with any other document that the Contracting Authority deems suitable.

— The tenderer's tax condition. Documentation requirement: Tenderers must have their tax, payroll tax and VAT payments in order.

— Tax certificate, not older than 6 months, calculated from the tender deadline.

#### **III.1.3. Technical and professional ability**

List and brief description of selection criteria:

— Tenderers must have experience from comparable assignments.

Description of the tenderer's most relevant contracts in the course of the last 3 years. The assignment description must include a specification of the assignment value, assignment length and the recipient (name, phone number and email address.). The tenderer is responsible for documenting the assignment's relevance through their description. Only assignments that include the installation of products from the supplier Schneider (cf. point 1.3) will be seen as relevant assignments.

Tenderers may do this by including documentation on the competence of the personnel that can be used for this project, including experience that has been acquired while the personnel was in the service of another employer. Tenderers shall have sufficient implementation ability and capacity.

— An account of the tenderer's average workforce in the last 3 years, with a presentation of the number of relevant certifications and the distribution of different competence levels/job levels. Tenderers shall have a good and well-functioning quality assurance system for the services that shall be provided,

— an account of the tenderer's quality assurance system/quality management system, or a copy of the system certificate issued by accredited certification bodies or equivalent documentation. Tenderers must have the necessary certification and authorisation:

- tenderers/installers must have the certifications that apply for the assembly of security systems, as well as FG certification,
- tenderers must have Ekomnett authorisation. [https://www.nkom.no/teknisk/ekomnett/installasjon- og-autorisasjon/autorisasjon](https://www.nkom.no/teknisk/ekomnett/installasjon-og-autorisasjon/autorisasjon),
- tenderers must document satisfactory and valid certificates and authorisation,
- tenderers must be a certified dealer/installer of the products in question,
- tenderers must be able to document a valid partner contract/supplier contract with Schneider electric.
