2.1. Procedure

Title: 9625 Traffic Control Centres High Speed Data Services
Description: IÉ has a requirement for the provision of High-Speed Fibre Optic Data Services at the two Traffic Control Centres (TCC's) located in Connolly Station and Heuston Station. IÉ require a single vendor to provide these High-Speed Fibre Optic Data Services at both locations with a minimum 2Gbit/s link speed initially and scalable to 10Gbit/s link speed available upon request at both locations. The external services source for the TCC's shall not be co-located with no single point of failure within the solution that could cause service disruption to both locations simultaneously. High-Speed Fibre Optic Data Services shall be provided within 6 months of contract award. These services are required to support continued SET OT system evolution, access to external sensors and data environments and enhanced external support provision by vendors and IÉ staff. Further specific details will be provided to the companies who are pre-qualified to the ITT stage.
