Legal type of the buyer: Body governed by public law

Activity of the contracting authority: Education

2. Procedure

2.1. Procedure

Title: IT3514F - RFT to Establish a Single Supplier Framework Agreement for Provision of IT Network Equipment, Software and Services for University of Galway

Description: University of Galway are seeking to establish a single party framework agreement for the provision of IT equipment, software and related services to support its network infrastructure. The initial contract for an on-premises DDI Solution will be awarded to the successful tenderer shortly after formalisation of the framework agreement. The University requirements for the initial contract are described hereunder: The Galway campus network consists of approximately 600 Cisco network switches connecting 5000 network nodes. The wireless network consists of 1,000 Access Points (AP) associating to a pair of Cisco 9800 wireless controllers. The wireless network SSID used on campus is an 802.1x SSID and has peak concurrent usage of approximately 15,000 users during the teaching semester. The University network also serves satellite centres at Shannon, Carna and Gaoth Dobhair. University seeks a DDI Solution. The purpose of DDI is to manage three core network services that work together to provide foundational network infrastructure: • DNS (Domain Name System) - Translates human-readable domain names (like google.com) into IP addresses that computers can understand. It acts as the internet's phone book, directing traffic to the correct destinations. • DHCP (Dynamic Host Configuration Protocol) - Automatically assigns IP addresses and network configuration settings to devices when they connect to a network. This eliminates the need to manually configure each device's network settings. • IPAM (IP Address Management) - Tracks, plans, and manages IP address space across an organisation's networks. It provides visibility into IP address usage, helps prevent conflicts, and supports network planning. DDI solutions integrate these three services into a unified platform. University of Galway currently has an enterprise DDI solution in place using on-prem hardware and software. This solution provides: • IP address management for all campus networks wired, wireless and WAN. • DHCP and DNS server for all campus networks • Recursive DNS Lookups for all wireless and wired clients • Fixed DHCP address and Reserved DHCP address management • DHCP options used for phones • Use of DHCP Class ID to enable clients select a DHCP address from scopes • Reporting of scope utilization The current solution consists of 9 appliances distributed across two Data Centres (Data Centre North and Data

Centre South) using a proprietary grid architecture. The infrastructure consists of: • One HA pair for DHCP • One HA pair for DNS • Second DNS appliance • 2 cache servers and 2 external servers

The procedure is accelerated: no

2.1.1. Purpose

Main nature of the contract: Services

Main classification (cpv): 72222300 Information technology services

Additional classification (cpv): 48210000 Networking software package, 32420000 Network equipment, 32424000 Network infrastructure, 48200000 Networking, Internet and intranet software package, 48211000 Platform interconnectivity software package, 72611000

Technical computer support services, 72263000 Software implementation services

2.1.2. Place of performance

Country subdivision (NUTS): West (IE042)

Country: Ireland

2.1.3. Value

Estimated value excluding VAT: 2 750 000,00 EUR

Maximum value of the framework agreement: 2 750 000,00 EUR

2.1.4. General information

Legal basis:

Directive 2014/24/EU

5. Lot

5.1. Lot: LOT-0001

5.1.1. Purpose

Main nature of the contract: Services

Main classification (cpv): 72222300 Information technology services

Additional classification (cpv): 48210000 Networking software package, 32420000 Network equipment, 32424000 Network infrastructure, 48200000 Networking, Internet and intranet software package, 48211000 Platform interconnectivity software package, 72611000 Technical computer support services, 72263000 Software implementation services

5.1.2. Place of performance

Country subdivision (NUTS): West (IE042)

Country: Ireland

Additional information: See attached tender documents

5.1.3. Estimated duration

Duration: 120 Months

5.1.5. Value

Estimated value excluding VAT: 2 750 000,00 EUR

5.1.6. General information

Procurement Project not financed with EU Funds.

The procurement is covered by the Government Procurement Agreement (GPA): yes

5.1.7. Strategic procurement

Aim of strategic procurement: No strategic procurement

5.1.10. Award criteria

Criterion:

Type: Quality

Description: Quality @ 75%

Category of award weight criterion: Weight (percentage, exact)

Award criterion number: 75

Criterion:

Type: Cost

Description: Cost @ 25%

Category of award weight criterion: Weight (percentage, exact)

Award criterion number: 25

5.1.15. Techniques

Framework agreement:

Framework agreement, partly without reopening and partly with reopening of competition

Information about the dynamic purchasing system:

No dynamic purchase system

5.1.16. Further information, mediation and review

Review organisation: The High Court of Ireland

Organisation providing offline access to the procurement documents: Education Procurement Service (EPS)

Organisation providing more information on the review procedures: The High Court of Ireland

6. Results

Maximum value of the framework agreements in this notice: 2 750 000,00 EUR

6.1. Result lot identifier: LOT-0001

Winner selection status: At least one winner was chosen.

Framework agreement:

Maximum value of the framework agreement: 2 750 000,00 EUR

6.1.2. Information about winners**Winner:**

Official name: Conscia Ireland

Tender:

Tender identifier: 000159803

Identifier of lot or group of lots: LOT-0001

Subcontracting: No

Contract information:

Identifier of the contract: 453594

Date on which the winner was chosen: 29/04/2026

Date of the conclusion of the contract: 17/06/2026

6.1.4. Statistical information**Received tenders or requests to participate:**

Type of received submissions: Tenders submitted electronically

Number of tenders or requests to participate received: 3
