DALO wishes to procure a Containerized Oil Spill Recovery Systems (COSRS) in order to have an independent capacity for oil recovery on water. The system is primarily expected to be used on and from ships, including ships that are 'vessels of opportunity'.

To be able to work on all types of ships, the system shall be independent from any supply (hydraulic, electrical etc.) from the ship. The COSRS shall be containerized in order to be

transportable by land, sea and by air. The COSRS is expected to be a set consisting of 2 separate containers (10-foot ISO or equivalent), 1 containing an oil containment boom on a reel and 1 containing an oil skimmer, power pack and all necessary ancillary equipment. The power pack is expected to be able to inflate the oil booms with air, drive a hydraulic oil boom reel and the oil skimmer. The system is not intended to include any storage facility for recovered oil.

VI.2. Additional information

Re. section III.2.1) When submitting the bids the tenderers must submit a solemn declaration stating to which degree the tenderer has fulfilled its obligations relating to the payment of direct and indirect taxes and social security contributions in accordance with the legal provisions of the country in which the tenderer is established and in Denmark in accordance with consolidation act no. 336 of 13.5.1997 regarding public payments. A form that the tenderers can use will be submitted with the tender material.

Re. Section III.2) According to directive 2004/18 art. 48(3), a tenderer may rely on the technical capacity of other entities, regardless of the legal nature of the links with the entities. If a tenderer wants to rely on other entities and wishes that the capacity of other entities is included when establishing the suitability of the tenderer, the tenderer must prove that the other entities will and shall put the relevant resources at the disposal of the tenderer. For instance this is fulfilled if the tenderer submits a co-operation agreement clearly stating that the tenderer has the relevant resources at its disposal (conversely, it is not sufficient to submit a declaration stating that the tenderer is entitled to sell products on behalf of another entity if the tenderer wishes to rely on the capacity of this other entity).

When submitting contact details the tenderers are encouraged to submit as much information as possible and preferable also the e-mail address of the tenderer's contact person.

VI.3.2. Review procedure

Precise information on deadline(s) for review procedures: As a consequence of the Danish act no. 492 of 12.5.2010 with subsequent amendments regarding enforcement of the rules for procurement etc., complaints must be filed with The Complaints Board for Public Procurement within 45 calendar days after the contracting authority has published a contract award notice in the Official Journal of the European Union (with effect from the day following the publication date).

However, if the tender concerns a framework agreement complaints must be filed with The Complaints Board for Public Procurement within 6 months after the Contracting Authority has sent notification to the candidates/ tenderers involved that the Contracting Authority has entered into the framework agreement if the notification included a short account of the relevant reasons for the decision.

The complainant must inform the contracting authority of the appeal in writing at the latest simultaneously with the lodge of the complaint to The Complaints Board for Public Procurement.

The complainant shall state whether the complaint has been lodged in the stand-still period. If the appeal has not been lodged in the stand-still period, the appellant must also state whether it is requested that the appeal is granted delaying effect.
