Chorley and South Ribble and Greater Preston CCGs commission health services for around 385 000 residents and are inviting expressions of interest from providers to deliver an Integrated Acute and Community Musculoskeletal (MSK) Service to be based in a minimum of two sites within each of the CCG areas. This will serve as an alternative to hospital based treatment for the majority of patients being referred by GPs for MSK assessments. The Clinical Assessment and Treatment Centre (CAT) will be an interface service providing a single point of access with triage for referrals for MSK assessments and the management of chronic pain. The provider shall enhance the management of patients presenting with MSK conditions within the Community and actively manage the demand for secondary care services ensuring patients have timely and appropriate access to treatments.

Chorley and South Ribble and Greater Preston CCGs are looking for a provider that can fully meet the specification and demonstrate innovation, best quality, patient experience, cost effectiveness, excellent access and deliver seamless, safe patient pathways.

There is an expectation that this service will achieve a saving against the existing service model (based on national tariff).

The successful provider will be required to sign the relevant national NHS contract for the service, accepting all terms and conditions.
