Activity of the contracting entity: Electricity-related activities

2. Procedure

2.1. Procedure

Title: Prequalification: Ground work and construction of a transformer building as well as the establishment of cable trenches - Haugaland Næringspark

Description: This procurement is for a turnkey contract for ground work and the construction of a new transformer station in Haugaland Næringspark. The project aims to ensure energy supply to the business park and facilitate planned industrial development in the area. In the long term the measure will also strengthen the security of supplies in Haugalandet and enable the connection of energy production from Tysvær wind power plant. The transformer station is planned to be erected with one station building and five transformer cells. This contract is for the ground work, as well as the construction of the station building and two of five transformer cells. The transformer station shall be certified in accordance with BREEAM-NOR v.6.0. The tenderer will be responsible for ensuring that the transformer station achieves BREEAM certification. In addition to the transformer station, the contract includes the establishment of a ground cable connection from the transformer station to the end mast (M22) on the aerial high voltage line connection between Klovning transformer station and Haugaland Næringspark, as well as cable trenches between Statnett's transformer station at Gismarvik and up to the station in Haugaland Næringspark etc., the Contracting Authority will choose at least two of the qualified tenderers to submit a tender, provided that there are a sufficient number of qualified tenderers. There is no upper limit for the number of qualified tenderers who can be invited to submit a tender, and the contracting authority reserves the right to invite a selection or all of them. Any selection of tenderers who are invited to submit tenders will be made based on the selection criteria in the competition description point 3.5. After the tenders are received, the contracting authority plans to carry out negotiations with the tenderers. Any negotiations may be carried out in several rounds of negotiations, where the contracting authority reserves the right to reduce the number of tenders to be negotiated. A first reduction of the number of tenders can occur already before the negotiations, cf. the Utilities Regulations § 19-12 (4). Any reductions in the number of tenders will be made on the basis of the award criteria. The Contracting Authority is also subject to awarding the contract without negotiations. Tenderers are thus encouraged to submit a good and competitive first tender. Emphasis is put on the fact that this is only a general description of the procurement. See the other procurement documents, including the function description, the contract documentation, access model, reports and drawings etc. for further information.

Procedure identifier: 67d0a6d9-8708-45d5-b342-066409cd2691

Additional classification (cpv): 31300000 Insulated wire and cable, 31600000 Electrical equipment and apparatus, 45100000 Site preparation work, 45200000 Works for complete or part construction and civil engineering work, 45210000 Building construction work, 45220000 Engineering works and construction works, 45223210 Structural steelworks, 45223500 Reinforced-concrete structures, 45230000 Construction work for pipelines, communication and power lines, for highways, roads, airfields and railways; flatwork, 45232000 Ancillary works for pipelines and cables, 45232221 Transformer substation, 45300000 Building installation work, 45310000 Electrical installation work, 45400000 Building completion work, 71300000 Engineering services, 71310000 Consultative engineering and construction services, 71320000 Engineering design services, 71500000 Construction-related services

5.1.2. Place of performance

Country subdivision (NUTS): Rogaland (NO0A1)

Country: Norway

5.1.3. Estimated duration

Start date: 10/01/2027

Duration end date: 01/12/2028

5.1.4. Renewal

Maximum renewals: 0

5.1.6. General information

Reserved participation:

Participation is not reserved.

The procurement is covered by the Government Procurement Agreement (GPA): yes

5.1.9. Selection criteria

Sources of selection criteria: Procurement Document

Information about the second stage of a two-stage procedure:

The procedure will take place in successive stages. At each stage, some participants may be eliminated

5.1.11. Procurement documents

Languages in which the procurement documents are officially available: Norwegian

Address of the procurement documents: <https://permalink.mercell.com/286867664.aspx>

5.1.12. Terms of procurement

Terms of submission:

Electronic submission: Required

Address for submission: <https://permalink.mercell.com/286867664.aspx>

Languages in which tenders or requests to participate may be submitted: Norwegian

Electronic catalogue: Not allowed

Variants: Not allowed

Deadline for receipt of requests to participate: 20/08/2026 21:59:00 (UTC+00:00) Western European Time, GMT

Terms of contract:

The execution of the contract must be performed within the framework of sheltered employment programmes: No

Conditions relating to the performance of the contract: The terms of delivery are in the procurement documents. See part II The contract documentation chapter E for milestones and deadlines.

Financial arrangement: The terms of payment are stated in the attached procurement documents, including part II contract documentation chapter F.

5.1.15. Techniques

Framework agreement:

No framework agreement

Information about the dynamic purchasing system:

No dynamic purchase system
