#### **II.2.4. Description of the procurement**

The overarching aim of the service is to improve physical, emotional, psychological and social functioning for people with severe and complex obesity by the provision of a service designed to promote and sustain weight loss for a period of 12-18 months (this timescale is flexible depending on service model and patient need). It is anticipated that this will be achieved by:

- raising patient’s awareness of both the health and wider benefits of weight loss,
  - supporting patient activation for behaviour change including meaningful lifestyle changes (for example diet and physical activity levels), goal setting to increase patient self-efficacy and motivation for weight loss, maintenance and relapse prevention. This could be enhanced through working with other services and voluntary organisations,
  - working with patients and other providers within the local obesity/weight management pathway (shared decision making) to identify most appropriate treatment options. This will include identifying suitable patients for surgery. Patients deemed suitable for surgery will receive a comprehensive multi-disciplinary assessment, including pre-surgery requirements and realistic dietary and weight-loss expectations post-surgery,
  - ensuring that those patients who do not meet criteria for a surgical intervention remain motivated to facilitate weight loss within the service,
  - providing post-surgery care to patients following bariatric surgery for a minimum of 2 years.
- Full details of the Service are provided within the service specification (see “service specification contract and other relevant information” within ITT Document 2), providing some helpful supplementary information about the commissioning intentions of the Contracting Authority.

The services to which this procurement relates fall within Schedule 3 of the Public Contracts Regulations 2015 (the “Regulations”). As such, the procurement of the services is being run as a bespoke, single-stage application process akin to the Open Procedure. NHS Leeds CCG does not intend to hold itself bound by any of the Regulations, save those applicable to Schedule 3 services. This opportunity is also being advertised on Contracts Finder.
