Skyss awards contracts for driving buses, light rail, fast boats and ferries in Vestland after tender contests.

Skyss would like tenders for the operation of a pilot scheme for booked transport in the Tertnes area. The pilot scheme includes the operation of a vehicle with a driver and complete system for transport bookings and automatic planning of transport. Skyss would like to award a contract that includes the entire service (system, material, and driver), and will only enter into a contract with one tenderer. Sub-tenders with a separate evaluation and ranking for the system and operation are not allowed.

The main aim of the booked transport in Tertnes is to have an offer that is suitable for the elderly and other persons who require facilitated transport. We would like the target group to use this offer to make it easier for them to access service functions/activities in the area where the service is in operation. The execution of the assignment must facilitate this. The offer must be executed as a supplement to the ordinary bus routes in the area.
