III.1.4. Contract performance conditions

The performance of the contract is subject to particular conditions: yes

Description of particular conditions: See the tender documentation.

III.2. Conditions for participation

III.2.1. Suitability to pursue the professional activity, including requirements relating to enrolment on professional or trade registers

List and brief description of conditions: — The tender shall contain VAT and tax certificates, not older than 6 months.

— Tenderers shall have systems and routines that ensure that the HSE work is operated in a systematic manner in accordance with the internal control regulations, cf. the confirmation in the tender documentation's E5 tender form.

— The average of the H1-value for the last three years should be lower than 15. If the H1-value is higher than this, an account shall be given of the developing trend for the H1-value and possibly the F-value, which will express the severity of any high H1-value. Furthermore, a report on whether improvement measures are implemented, and if so, also documentation on the effectiveness of these, should accompany the tender.

— Organisation of the implementation of the contract requires sufficient manpower and that the tenderer has sufficient capacity and ability to manage unexpected contractual conditions. A statement of how the tenderer will organise the execution of the contract.

— If the tenderer is a working partnership (a supplier group), a declaration of joint and several liability to the Builder and third parties must be enclosed with the tender.

III.2.2. Economic and financial ability

List and brief description of conditions: — It is a requirement that the tenderer's equity is positive. If the tenderer is a working partnership (supplier consortium), the requirements apply for each of the participants. Documentation of equity is to be submitted the tender.

— The tenderer's annual average turnover should be at least as large as the annual revenues the contract will generate. Documentation of turnover for the last 3 years should be submitted the tender.

III.2.3. Technical and professional ability

List and brief description of conditions:

— The tenderer shall have experience from work of the same nature and degree of difficulty. Information on such shall be attached with the tender.

— The tenderer is required to show references to relevant contracts that they themselves have carried out in a satisfactory manner. Information about contracts the tenderer has had in the last few years, with names of references at the contracting authority, shall accompany the tender.

— Tenderers who are newly established companies and cannot submit references, must be particularly careful to demonstrate that they have the what it takes to carry out the contract. The tenderer shall report their company formation and employee expertise. Planned organisation for the assignment and CV s for the key personnel in the project organisation are extremely important. This also applies for companies that merge or are acquired by another company during the tendering process.

— Technical and professional competency and relevant experience is required of the key personnel who will be used for this assignment. Competence and experience must be documented.

III.2.4. Information about reserved contracts

III.3. Conditions specific to services contracts

III.3.1. Information about a particular profession

Execution of the service is reserved to a particular profession: no

III.3.2. Information about staff responsible for the performance of the contract
