2. Procedure

2.1. Procedure

Title: Provision of Specialist Refurbishment, Relocation, Repair and Recommissioning Services for a Raith e-LiNE Electron Beam Lithography System

Description: Trinity College Dublin intends to award a contract to EM Systems Support Limited, Media House, London Road, Adlington, Cheshire, SK10 4NL, United Kingdom for the specialist de-installation, transportation, refurbishment, repair, reinstallation, commissioning and validation of an existing Raith e-LiNE Electron Beam Lithography (EBL) system. The contract includes: De-installation of the existing instrument from its current location; Specialist transport and insurance; Refurbishment and repair at the supplier's dedicated facility; Supply and installation of replacement components where required; Comprehensive functional testing and validation; Reinstallation and recommissioning at Trinity College Dublin; Final performance verification against factory acceptance criteria; Warranty covering repaired components and associated work.

Procedure identifier: 0b03caca-7ba7-4a84-89cc-5a124ce7e4b7

Internal identifier: TCD-26-C2479

Type of procedure: Negotiated without prior call for competition

2.1.1. Purpose

Main nature of the contract: Supplies

Main classification (cpv): 38511000 Electron microscopes

2.1.2. Place of performance

Country subdivision (NUTS): Dublin (IE061)

Country: Ireland

2.1.4. General information

Legal basis:

Directive 2014/24/EU

Organisation providing more information on the review procedures: The High Court of Ireland

6. Results

Value of all contracts awarded in this notice: 81 000,00 EUR

Direct award

:

Justification for direct award: The contract can be provided only by a particular economic operator because of an absence of competition for technical reasons

Other justification: EM Systems Support Ltd (EMSS) is the authorised service partner and representative for Raith GmbH in the United Kingdom and Ireland and has direct access to the manufacturer's proprietary diagnostic software, engineering documentation, calibration procedures, original spare parts and technical support network. The refurbishment and recommissioning of the Raith e-LiNE Electron Beam Lithography system requires manufacturer-approved service procedures, proprietary replacement components, specialised diagnostic equipment and factory-level performance verification. EMSS will undertake the refurbishment in conjunction with Raith GmbH, with the completed system independently validated by Raith headquarters prior to acceptance by Trinity College Dublin. These capabilities cannot be replicated by an independent third-party service provider without introducing unacceptable technical risk to the performance, calibration, reliability and ongoing

supportability of the instrument. Accordingly, the contract may only be awarded to EM Systems Support Ltd for technical reasons in accordance with Regulation 32(2)(b)(i) of the European Union (Award of Public Authority Contracts) Regulations 2016.
