Health

Section II: Object

II.1. Scope of the procurement**II.1.1. Title**

K2513500005 ERG-device with FST

Reference number: HUS 385-2023

II.1.2. Main CPV code

33100000 Medical equipments

II.1.3. Type of contract

Supplies

II.1.4. Short description

HUS aims to purchase a combined ERG- and FST device. FST (full field stimulus threshold) test is used to measure the sensitivity of the visual field by testing for the lowest luminance flash which elicits a visual sensation perceived by the subject. FST can quantitate vision in subjects who cannot be studied with conventional methods due to low vision, nystagmus and /or inability to fix. It can be used to monitor progression of a blinding disease, and potential therapeutic effect of a therapy. FST is being used in international studies measuring the natural course of inherited retinal dystrophies, and it is approved by FDA to monitor the therapeutic effect of Luxturna gene therapy. The configuration must include a dark adaptometry module and a movable equipment trolley.

The procurement also includes device-specific consumables and an option right to purchase a maximum of two (2) similar device sets between 2024 and 2026. The use of options will be decided later. The agreement for device-specific consumables will be in force for a fixed period of four (4) years and thereafter until terminated.

A maintenance contract must be offered as a mandatory option. The implementation of the maintenance contract is decided separately.

The object of the procurement and the requirements pertaining to it are described in detail in the call for tenders and its attachments.

II.1.5. Estimated total value

II.1.6. Information about lots

This contract is divided into lots: no

II.2. Description

II.2.3. Place of performance

NUTS code: FI1B Helsinki-Uusimaa

II.2.4. Description of the procurement

HUS aims to purchase a combined ERG- and FST device. FST (full field stimulus threshold) test is used to measure the sensitivity of the visual field by testing for the lowest luminance flash which elicits a visual sensation perceived by the subject. FST can quantitate vision in subjects who cannot be studied with conventional methods due to low vision, nystagmus and /or inability to fix. It can be used to monitor progression of a blinding disease, and potential therapeutic effect of a therapy. FST is being used in international studies measuring the natural course of inherited retinal dystrophies, and it is approved by FDA to monitor the therapeutic effect of Luxturna gene therapy. The configuration must include a dark adaptometry module and a movable equipment trolley.

The procurement also includes device-specific consumables and an option right to purchase a maximum of two (2) similar device sets between 2024 and 2026. The use of options will be decided later. The agreement for device-specific consumables will be in force for a fixed period of four (4) years and thereafter until terminated.

A maintenance contract must be offered as a mandatory option. The implementation of the maintenance contract is decided separately.

The object of the procurement and the requirements pertaining to it are described in detail in the call for tenders and its attachments.

II.2.5. Award criteria

Price is not the only award criterion and all criteria are stated only in the procurement documents

II.2.6. Estimated value

II.2.7. Duration of the contract, framework agreement or dynamic purchasing system

Duration in months: 48

This contract is subject to renewal: yes

Description of renewals:

The agreement for device-specific consumables will be in force for a fixed period of four (4) years and thereafter until terminated.

II.2.10. Information about variants

Variants will be accepted: no

II.2.11. Information about options

Options: no

II.2.13. Information about European Union funds

The procurement is related to a project and/or programme financed by European Union funds:
no

II.2.14. Additional information

Section III: Legal, economic, financial and technical information

III.1. Conditions for participation

III.1.1. Suitability to pursue the professional activity, including requirements relating to enrolment on professional or trade registers

List and brief description of conditions:
