The contracting authority is purchasing on behalf of other contracting authorities: no

Section II: Object of the contract

II.1. Description

II.1.1. Title attributed to the contract by the contracting authority

E134 Morgedal — Mostøyl.

II.1.2. Type of contract and place of performance or delivery

Works

Main site or place of performance: Telemark, Norway.

NUTS code NO Norge

II.1.3. Information about a framework agreement or a dynamic purchasing system

The notice involves a public contract

II.1.4. Information about framework agreement

II.1.5. Short description of the contract or purchase(s)

The E134 shall be completely rebuilt on a stretch of approx. 3 000 m between Morgedal and Mostøyl. Dimensioning class U-H2 with 8.5 m road width. There are three minor bridges with lengths of 8-8-5 m on the lot. The road is to be built on both the old and a new route. The annual daily traffic count is approx. 2 400. Approx. 155 000 m³ rock shall be blasted in a line divided between 2 bigger full-cuttings in addition to half-cuttings. There is approx. 110 000 m³ filling and frost protection.

The road shall be built with a total superstructure of 1.8 m. There will be open drainage.

Three waste disposal sites are regulated on the stretch.

The project is model based. A web-hotel (E-room) shall be used for processing the documents in the contract.

II.1.6. CPV code(s)

45000000 Construction work, 45233121 Main road construction works, 45233124 Trunk road construction work, 45233140 Roadworks

II.1.7. Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: yes

II.1.8. Lots

This contract is divided into lots: no

II.1.9. Information about variants

Variants will be accepted: no

II.2. Scope of the procurement

II.2.1. Total quantity or scope

See the tender documentation.

II.2.2. Information about options

Options: no

II.2.3. Information about renewals

This contract is subject to renewal: no

II.3. Duration of the contract or time limit for completion

Section III: Legal, economic, financial and technical information

III.1. Conditions related to the contract

III.1.1. Deposits and guarantees required

See the tender documentation.

III.1.2. Main financing conditions and payment arrangements and/or reference to the relevant provisions governing them

See the tender documentation.

III.1.3.

Legal form to be taken by the group of economic operators to whom the contract is to be awarded

See the tender documentation.

III.1.4. Contract performance conditions

The performance of the contract is subject to particular conditions: no

III.2. Conditions for participation

III.2.1. Suitability to pursue the professional activity, including requirements relating to enrolment on professional or trade registers

List and brief description of conditions: — Tax and VAT certificate not older than six months.
— Tenderers shall have systems and routines that ensure that the HSE work is operated in a systematic manner in accordance with the internal control regulations, cf. the confirmation in the tender documentation's E5 tender form.

— The average of the H1-value for the last three years should be lower than 15. If the H1-value is higher than this, an account shall be given of the developing trend for the H1-value and possibly the F-value, which will express the severity of any high H1-value. Furthermore, a report on whether improvement measures are implemented, and if so, also documentation on the effectiveness of these, should accompany the tender.

— Organisation of the implementation of the contract requires sufficient manpower and that the tenderer has sufficient capacity and ability to manage unexpected contractual conditions. A statement of how the tenderer will organise the execution of the contract shall be enclosed with the tender.

III.2.2. Economic and financial ability

List and brief description of conditions: — It is a requirement that the tenderer's equity is positive. Documentation of equity is to be submitted the tender.

— The tenderer's annual average turnover should be at least as large as the annual turnover the contract will generate. Documentation of turnover for the last three years should be submitted the tender.

III.2.3. Technical and professional ability

List and brief description of conditions:

The tenderer shall have experience from work of the same nature and degree of difficulty. Information on such shall be enclosed with the tender.

— The tenderer is required to show references to relevant contracts that they themselves have carried out in a satisfactory manner. Information about contracts the tenderer has had in the last few years, with names of references at the contracting authority, shall accompany the tender.

— Tenderers who are newly established companies and cannot submit references, must be particularly careful to demonstrate that they have the what it takes to carry out the contract. The tenderer shall report their company formation and employee expertise. Planned organisation for the assignment and CV s for the key personnel in the project organisation are extremely important. This also applies for companies that merge or are acquired by another company during the tendering process.

— Technical and professional competency and relevant experience is required of the key personnel who will be used for this assignment. Either the project manager or the site manager are required as a minimum to have passed technical vocational college. Competence and experience must be documented.

III.2.4. Information about reserved contracts

III.3. Conditions specific to services contracts

III.3.1. Information about a particular profession

Execution of the service is reserved to a particular profession: no

III.3.2. Information about staff responsible for the performance of the contract

Obligation to indicate the names and professional qualifications of the staff assigned to performing the contract: no

Section IV: Procedure

IV.1. Type of procedure
