General public services

Other

I.4. Contract award on behalf of other contracting authorities**Section II: Object of the contract**

II.1. Description**II.1.1. Title attributed to the contract by the contracting authority**

Analysis and information platform.

II.1.2. Type of contract and place of performance or delivery

Services

Service category No 7: Computer and related services

Main site or place of performance: Oslo.

NUTS code NO011 Oslo

II.1.3. Information about a framework agreement or a dynamic purchasing system

The notice involves a public contract

II.1.4. Information about framework agreement

II.1.5. Short description of the contract or purchase(s)

The Norwegian Tax Administration would like to enter into a contract for the procurement of an analysis and information platform. This platform will consist of the following functional sub-areas:

— System for scoring and rules (both running and development environment).

The scoring system will be based on predictive models, expert models and rules. It shall also be to use technologies such as pattern recognition and graph analyses. The different techniques must be able to be combined in order to make up a whole. Integrated in the processes, they shall support dynamic choices between different service strategies.

— Several tools for advanced analysis.

The area cover tools and consumer/user orientated services within advanced analysis, data investigation, data processing, visualisation, graph/network analyses, pattern recognition etc. Advanced analysis also includes areas such as data and text mining, simulation, optimisation, prognostication etc.

— Analysis and information platform with data integration.

The total system shall support the establishment of an analysis and information platform that includes:

— Data Management Solution for Analytics (DMSA).

— Logical data warehouse.

— Data virtualisation and data integration.

We would like to be open for several alternatives in the competition:

Procurement of a system as well as a support and maintenance contract.

Procurement of a system as well as an operational contract.

Procurement of a system as a service.

II.1.6. CPV code(s)

48000000 Software package and information systems, 30200000 Computer equipment and supplies, 30211300 Computer platforms, 48441000 Financial analysis software package, 48461000 Analytical or scientific software package, 48463000 Statistical software package, 48482000 Business intelligence software package, 48611000 Database software package, 48614000 Data-acquisition system, 48800000 Information systems and servers, 48810000 Information systems, 72000000 IT services: consulting, software development, Internet and support, 72300000 Data services, 72310000 Data-processing services, 72316000 Data analysis services

This contract is subject to renewal: yes

Number of possible renewals: 3

In the case of renewable supplies or service contracts, estimated timeframe for subsequent contracts:

in months: 12 (from the award of the contract)

II.3. Duration of the contract or time limit for completion

Duration in months: 60 (from the award of the contract)

Section III: Legal, economic, financial and technical information

III.1. Conditions related to the contract

III.1.1. Deposits and guarantees required

III.1.2. Main financing conditions and payment arrangements and/or reference to the relevant provisions governing them

III.1.3. Legal form to be taken by the group of economic operators to whom the contract is to be awarded

III.1.4. Contract performance conditions

III.2. Conditions for participation

III.2.1. Suitability to pursue the professional activity, including requirements relating to enrolment on professional or trade registers

List and brief description of conditions: Requirement: The interested party shall have their tax, employer contribution and VAT payments in order.

Documentation requirement: Norwegian tenderers shall submit a certificate, either from the tax collector or the Norwegian Tax Administration, which states the extent of any tax, employer contribution and VAT payment arrears.

Foreign tenderers shall submit an equivalent certificate from authorities equivalent to the Norwegian authorities.

The certificate must not be more than six months old calculated from the deadline for receipt of the request for participation. Any arrears and other notes must be explained.

Requirement: The interested party must be a legally established company.

Documentation Requirement: Norwegian tenderers shall submit a company registration certificate.

Foreign companies must submit documentation that demonstrates the tenderer is registered in

a trade index or professional register or business register as prescribed in legislation in the country where the tenderer is established.

III.2.2. Economic and financial ability

List and brief description of conditions: Requirement: Tenderers shall have adequate solidity. Documentation requirement: Credit rating, not older than one year calculated from the deadline for receipt of request for participation. The rating shall be based on the latest known accounting figures.

III.2.3. Technical and professional ability

List and brief description of conditions:

Requirement: A good ability to fulfil the contract is required.

Documentation requirement: Description of the tenderer's technical capacity and professional qualifications. A description is wanted of the capacity of relevant entities at the tenderers. With regard to qualifications, a brief overview of general relevant expertise at the tenderer is requested. The personnel who will be offered for the assignment shall not be specified, and CVs are not to be submitted.

An overview of the tenderer's average, general workforce and the number of employees in the administrative management during the last 3 years.

Requirement: Relevant experience from similar assignments is required.

Documentation requirement: Tenderers shall describe the 3 most relevant deliveries in the last 3 years, see points 1.2 and 1.3 in the qualification documentation, in which the tenderer has provided similar systems to a customer. The description for each delivery shall include the following:

- Name of the recipient/contracting authority.
- The assignment's length (from — to).
- The assignment's extent (number of manlabour years for the tenderer).
- The tenderer's role and responsibility in the assignment.
- Description of the system.
- Description of the delivery process.
