II.2.4. Description of the procurement

Helgeland Kraft Nett AS invites tenderers to a tender contest for an upgrade to existing 22 kV distribution network on the stretch Røvassdal — Plurheia in Rana Municipality, Nordland County.

Approx. 20 km of new cable ditches are to be established. Along the route 13 new network stations will be set up, with the accompanying low voltage circuits. There will be 12 road crossings of county and municipal roads, 1 railway crossing and 5 major river crossings. Several new high voltage and low voltage masts must be established. In addition an option can be taken up for a further 4 km of cabling, with 2 road crossings and 3 network stations and the accompanying low voltage circuits.

Most of the work will be done in 2021, with complete work and completion in 2022. Parts of the route will be prioritised and must be completed in 2021. The details of the work and an exact progress plan will be part of the detailed engineering design services. Parts of this will be carried out together with the main contractor.

Joining cables, assembly work, and commissioning will be carried out by Helgeland kraft Nett's own resources.
