#### 2.1. Procedure

Title: Digital teaching resources for primary and secondary schools

Description: Stavanger, Sandnes, Sola and Randaberg municipalities, henceforth referred to as contracting authorities, would like to collect tenders for the procurement and delivery of digital teaching resources to primary and secondary schools and other educational entities in the municipalities, including a network based tool for purchases, supervision and administration of licences. The contract can also be used by other municipal entities that need digital learning resources in connection with training. The contract also includes the

procurement of digital learning resources to school libraries, but not the Contracting Authority's public libraries. The framework agreement shall ensure the municipalities reliable access to high quality digital learning resources and at competitive prices. The contracting authorities will enter into a framework agreement with one tenderer, who can deliver a multitude of digital learning resources from several recognised publishers/suppliers for all stages and subjects in primary and secondary schools.

Procedure identifier: 5bad2840-d5e1-4349-8db2-d48c231fcb6

Internal identifier: 2026/29659

Type of procedure: Open

The procedure is accelerated: no

Main features of the procedure: The objective of the procurement of digital teaching resources is to provide relevant teaching resources to schools, nurseries and adult education in order to achieve the aims in the current curriculum/nursery school's current framework plan. Of particular importance have the areas that have been given or in the process of getting new curricula in connection with the trade renewal. The learning resources shall support requirements in the Education Act and the Government's strategy for primary and secondary school education/a framework plan for nurseries. In addition, learning resources shall satisfy the current legislation and requirements within universal design, information security and privacy. At the same time, we need to get a user friendly, efficient and future orientated system for the distribution of digital learning resources, with simple routines for selection, ordering, reporting and payment of digital learning resources.
