I.2. Main activity

Electricity

I.3. Contract award on behalf of other contracting entities

The contracting entity is purchasing on behalf of other contracting entities: no

Section II: Object of the contract

II.1. Description

II.1.1. Title attributed to the contract by the contracting entity

Kvitfossen and Kleppstad transformer station — General contracting Building.

II.1.2. Type of contract and place of performance or delivery

Works

Execution

Main site or place of performance: Kvitfossen and Kleppstad in Vågan municipality.

NUTS code NO071 Nordland

II.1.3. Information about a framework agreement or a dynamic purchasing system

II.1.4. Information about framework agreement

II.1.5. Short description of the contract or purchase(s)

Lofotkraft has been given the permission to expand the existing Kleppestad transformer station, as well as the construction of the new Kvitfossen transformer station.

The systems are a part of an extensive upgrading of the voltage for the regional network in Lofoten, cf. resolution NVE 201202211-157.

The new Kvitfossen transformer station shall be constructed on a recently acquired area and comprises a station building with a basal area of approx. 420 m² and an accompanying service building with an area of approx. 125 m².

Kleppestad transformer station is planned to be expanded with an indoor 132 kV gas insulated switchgear station with a control room. The area of the expansion is approx. 135 m².

Both station buildings will be made of concrete, steel and wood structures. The building will be executed with submerged cable basements and pits for collecting any oil leaks. The transformer cell and structured in the ground shall be made of reinforced concrete cast on-site. The outer walls in the lower building with requirements for indoor temperature shall be made of insulated wall studd in steel or wood.

The service building in Kvitfossen shall be built close to main building and in connect to the main building with an inbuilt corridor. This building shall be executed in accordance with normal domestic building standard.

An access road and parking areas to the building in Kvitfossen shall be established as well as construction of a driving area round the addition at Kleppestad.

II.1.6. CPV code(s)

45000000 Construction work

II.1.7. Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: yes

II.1.8. Information about lots

This contract is divided into lots: no

II.1.9. Information about variants

Variants will be accepted: no

II.2. Scope of the procurement

II.2.1. Total quantity or scope

Estimated value excluding VAT: 20 000 000 NOK

II.2.2. Information about options

Options: no

II.2.3. Information about renewals

This contract is subject to renewal: no

II.3. Duration of the contract or time limit for completion

Duration in months: 10 (from the award of the contract)

Section III: Legal, economic, financial and technical information

III.1. Conditions related to the contract

III.1.1. Deposits and guarantees required

The contractor shall provide guarantee for his contractual obligations equivalent to 10 % of the contract value. The guarantee will be reduced subsequent to take over in accordance with NS 8405 Point 9.2.

Guarantees shall be furnished by a bank, insurance company or other financial institutions, approved by the builder.

III.1.2. Main financing conditions and payment arrangements and/or reference to the relevant provisions governing them

III.1.3. Legal form to be taken by the group of economic operators to whom the contract is to be awarded

Any contractor group shall have joint and several liability.

III.1.4. Contract performance conditions

The performance of the contract is subject to particular conditions: no

III.2. Conditions for participation

III.2.1. Suitability to pursue the professional activity, including requirements relating to enrolment on professional or trade registers

List and brief description of conditions: — The company shall be legally registered;
— The company's tax affairs shall be in order in relation to payment of tax and charges;
— See the competition description.

III.2.2. Economic and financial ability

List and brief description of conditions: — The contractor must have the financial capacity to fulfil the contract;
— See the competition description.

III.2.3. Technical and professional ability

List and brief description of conditions: The contractor shall have central certification for execution, or substantiate that local certification can be achieved in development class 2 in the following certification disciplines:

- Ground work and landscape design;
- Concrete constructions cast on-site;
- Assembly of supporting metal or concrete constructions;
- Joinery work and assembly of wooden constructions;
- Sanitary, heating and fire-extinguishing systems;
- Ventilation and climate installations;
- Installation of fire alarms, emergency lighting and guiding system.

The contractor shall have central certification for execution, or substantiate that local certification can be achieved in development class 1 in the following certification disciplines:

- Water supply, waste water and district heating systems.

Tenderers can use sub contractors to achieve certification within the disciplines the tenderer does not have itself:

- The tenderer shall have a quality assurance/control system;
- Tenderers shall have experience from relevant assignments;
- The tenderer shall have a sufficient environmental management system;
- See the competition description.

III.2.4. Information about reserved contracts

III.3. Conditions specific to services contracts

III.3.1. Information about a particular profession

Execution of the service is reserved to a particular profession: yes

Reference to the relevant law, regulation or administrative provision: Tenderers must fulfil the requirements for execution in the current Planning and Building Act, enterprise classifications 2.

III.3.2. Information about staff responsible for the performance of the contract

Obligation to indicate the names and professional qualifications of the staff assigned to performing the contract: yes

Section IV: Procedure

IV.1. Type of procedure

IV.1.1. Type of procedure

Negotiated

Some candidates have already been selected (if appropriate under certain types of negotiated procedures): no

IV.2. Award criteria

IV.2.1. Award criteria

The most economically advantageous tender in terms of the criteria stated in the specifications or in the invitation to tender or to negotiate

IV.2.2. Information about electronic auction

An electronic auction will be used: no

IV.3. Administrative information

IV.3.1. File reference number attributed by the contracting entity

5146839

IV.3.2. Previous publication concerning this procedure

no

IV.3.3. Conditions for obtaining specifications and additional documents

(except for a DPS)

Time limit for receipt of requests for documents or for accessing documents: 15.1.2016 - 12:00

Payable documents: no

IV.3.4. Time limit for receipt of tenders or requests to participate

15.1.2016 - 12:00

IV.3.5. Languages in which tenders or requests to participate may be submitted

Other: Norwegian.

IV.3.6. Minimum time frame during which the tenderer must maintain the tender

IV.3.7. Conditions for opening of tenders

Section VI: Complementary information

VI.1. Information about recurrence

This is a recurrent procurement: no

VI.2. Information about European Union funds

The procurement is related to a project and/or programme financed by European Union funds:

no

VI.3. Additional information

The contract will be awarded after a restricted tender contest, without tenders being obtained from a later announcement. Interested companies are invited to register their interest in writing and sending in documentation for pre-qualification.

See the attached tender description.

VI.4. Procedures for review

VI.4.1. Review body

VI.4.2. Review procedure

VI.4.3. Service from which information about the review procedure may be obtained

VI.5. Date of dispatch of this notice

28.12.2015
