**Section II: Object**

**II.1. Scope of the procurement**

**II.1.1. Title**

Solution for eSubmission Management.

Reference number: 22/29667

**II.1.2. Main CPV code**

72410000 Provider services

**II.1.3. Type of contract**

Services

**II.1.4. Short description**

Procurement of a SaaS solution to handle dossiers connected to applications for marketing licences for medicines - eSubmissions.

**II.1.6. Information about lots**

This contract is divided into lots: no

### **II.1.7. Total value of the procurement**

Value excluding VAT: 12 900 000,00 NOK

## **II.2. Description**

### **II.2.2. Additional CPV code(s)**

48100000 Industry specific software package, 72220000 Systems and technical consultancy services

### **II.2.3. Place of performance**

NUTS code: NO081 Oslo

### **II.2.4. Description of the procurement**

The overall aim of the procurement is to solve the Norwegian Medicines Agency's (NOMA) need for eSubmission management. The procurement is connected to the ongoing process of modernising NOMA's case management systems. The modernisation has uncovered a need to reduce manual work connected to handling the reception, making available, and journaling of dossiers that are submitted for applications for marketing licences (MT) for case management. The existing systems are difficult to continue without a large part of the manual work be transferred from the archive function to executive employees. By introducing a system that both handles loading, validating, and making dossiers available, and which can be integrated with the next generation case management system in NOMA, this problem will be solved:

- To automatise the process of receiving, validating, and making dossiers available that are received from CESP, Common Repository, and in the future DADI / PL
- Lay the basis for being able to automatise corrections and updates to cases in NOMA's new case management system, DELE
- To facilitate NOMA's executive employees having a suitable and user friendly tool for insight in and processing of all relevant dossiers
- To facilitate the use of eCTD version 4.0

### **II.2.5. Award criteria**

Quality criterion - Name: The suitability of the offered solution for fulfilling the purpose of the procurement / Weighting: 70%

Quality criterion - Name: Described plan for the establishment phase / Weighting: 15%

Quality criterion - Name: Described SLA / Weighting: 15%

Price - Weighting: 30%

### **II.2.11. Information about options**

Options: yes

Description of options:

- Migration of data from today's solution
- Validation OQ (Test + PRD)

### **II.2.13. Information about European Union funds**

The procurement is related to a project and/or programme financed by European Union funds:  
no

### **II.2.14. Additional information**

## **Section IV: Procedure**

---

### **IV.1. Description**

#### **IV.1.1. Type of procedure**

Open procedure

#### **IV.1.3. Information about a framework agreement or a dynamic purchasing system**

#### **IV.1.8. Information about the Government Procurement Agreement (GPA)**

The procurement is covered by the Government Procurement Agreement: yes

#### **IV.2. Administrative information**

##### **IV.2.1. Previous publication concerning this procedure**

Notice number in the OJ S: [2022/S 249-728599](#)

##### **IV.2.8. Information about termination of dynamic purchasing system**
