Any tenders received from tenderers comprising firms other than those mentioned in the shortlisted application forms will be excluded from this restricted tender procedure unless prior approval from the contracting authority has been obtained (see 'Practical Guide' — PRAG 2.4.3). Selection and award criteria

21. Selection criteria:

The following selection criteria will be applied to candidates. In the case of applications submitted by a consortium, these selection criteria will be applied to the consortium as a whole unless specified otherwise. The selection criteria will not be applied to natural persons and single-member companies when they are subcontractors.

1) Economic and financial capacity of candidate (based on item 3 of the application form). In the case of the candidate being a public body, equivalent information should be provided. The reference period which will be taken into account will be the last 3 years for which accounts have been closed:

- the average annual turnover of the candidate must exceed the annualised maximum budget of the contract i.e., the maximum budget stated in the contract notice divided by the initial contract duration in years,

- current ratio (current assets/current liabilities) in the last year for which accounts have been closed must be at least 1. In the case of a consortium this criterion must be fulfilled by each member.

2) Professional capacity of candidate (based on items 4 and 5 of the application form). The reference period which will be taken into account will be the last 5 years from the submission deadline:

- at least 10 staff currently work for the candidate in fields related to this contract.

3) Technical capacity of candidate (based on items 5 and 6 of the application form). The reference period which will be taken into account will be the last 5 years from the submission deadline:

3.1. within the last 5 years preceding the submission deadline, the candidate must have successfully provided services under at least 1 contract with a budget of at least that of this contract and in the field of solid waste management (services);

3.2. in addition, within the last 5 years preceding the submission deadline, the candidate must have successfully implemented services in the domains and with the minimum values indicated in the table below (per domain). Services should be implemented at any moment during the reference period:

Domain; minimum value of relevant services in 1 cited reference:

environmental audit; 100 000 EUR;

green economy; 50 000 EUR;

new recycling technologies; 100 000 EUR;

capacity building in waste management best practices; 50 000 EUR;

procurement in solid waste field; 50 000 EUR;

economic instruments modelling software; 100 000 EUR;

awareness campaign; 100 000 EUR.

Previous experience which caused breach of contract and termination by a contracting authority shall not be used as reference.

An economic operator may, where appropriate and for a particular contract, rely on the capacities of other entities, regardless of the legal nature of the links which it has with them. It must in that case prove to the contracting authority that it will have at its disposal the resources necessary for performance of the contract, for example by producing a commitment on the part of those entities to place those resources at its disposal. Such entities, for instance the parent company of the economic operator, must respect the same rules of eligibility — notably that of nationality — and must fulfil the same relevant selection criteria as the economic operator. With regard to technical and professional criteria, an economic operator may only rely on the capacities of other entities where the latter will perform the works or services for which these capacities are required. With regard to economic and financial criteria, the entities upon whose capacity the tenderer relies, become jointly and severally liable for the performance of the contract.

If more than 8 eligible candidates meet the above selection criteria, the relative strengths and weaknesses of the applications of these candidates must be re-examined to identify the 8 best

candidates. The only factor which will be taken into consideration during this re-examination is:

- the highest total value of projects in criterion 21.3)3.2.

22. Award criteria:

Best price-quality ratio.
