Regional or local authority

I.5. Main activity

General public services

Section II: Object

II.1. Scope of the procurement**II.1.1. Title**

Winter maintenance operations on municipal roads and spaces in Sel municipality for the period autumn 2023 - spring 2028

II.1.2. Main CPV code

90620000 Snow-clearing services

II.1.3. Type of contract

Services

II.1.4. Short description

The aim of the procurement is to cover the need for winter operations on municipal roads and spaces in Sel municipality during the period from 01 October 2023 until and including 30 April 2028. The municipal roads and squares are divided into 13 areas, where one of the areas are included as an option. The work mainly consists of emergency preparedness, ploughing with associated clearing and spreading. The contracting authority needs, to a limited extent, assistance in clearing work after scraping the ice off the roads with a road scraper. This work shall be carried out as a work based on a cost-plus basis. For further information about the procurement's content, please refer to Part II of Annex 1, the Contracting Authority's Instructions.

II.1.5. Estimated total value

II.1.6. Information about lots

This contract is divided into lots: yes
Tenders may be submitted for all lots

Section III: Legal, economic, financial and technical information

III.1. Conditions for participation

III.1.3. Technical and professional ability

List and brief description of selection criteria:

Requirement:

Implementation ability requirements - vehicles and equipment

The tenderer must have at its disposal adequate vehicles and equipment to fulfil the contractual obligations for the area(s) subject to tender.

The qualification requirement does not include back-up equipment in the event of a breakdown. Available back-up equipment and machinery will be clarified in connection with the initiation of the contract.

The equipment and machinery must be suitable for the intended use.

We emphasise that it is not a requirement that the tenderer have all of the equipment mentioned at disposal, if the equipment is considered as unnecessary for the execution of the work on the area(s) for which tenders are submitted.

Tenderers must not have all the equipment at their disposal by the tender deadline. However, a plan must be presented showing how the necessary equipment to manage the tendered areas will be obtained so that the equipment is ready by the start of the season or the period.

Documentation requirement:

Overview of what equipment must be available, for example:

- Tractor/wheeled loader
- Snow clearing equipment
- Any vehicles available for snow transport and snow clearing work
- Gritting equipment

Annex 5 is to be completed and attached to the submitted tender. Use the free text field to explain if necessary.

NOTE: If the tenderer plans to use equipment from a subcontractor from the date of initiation of the contract, for handling one or more areas for which tenders are submitted, a Declaration of commitment signed by the subcontractor verifying that the tenderer has access to the equipment must be presented. The subcontractor must also complete its own ESPD in the Tender Management System (KGV).

III.2. Conditions related to the contract

III.2.2. Contract performance conditions

The contract will include a requirement on wage and work terms, documentation and sanctions in accordance with the regulations on wage and work terms from 8 February 2008 no. 112.
