Section II: Object of the contract

II.1. Description**II.1.1. Title attributed to the contract by the contracting authority**

Prequalification R01280 - RE 55 Backup power supply - P 2078

II.1.2. Type of contract and place of performance or delivery

Works

Execution

Main site or place of performance: The assignment consists of delivering a total of 7 similar plants, spread over the period 2024-2028. The plants are to be placed in 7 Norwegian municipalities.

NUTS code NO Norge

II.1.3. Information about framework agreement

II.1.4. Information about framework agreement

II.1.5. Short description of the contract or purchase(s)

The contracting authority shall establish a backup power supply system to ensure an uninterruptible and secure power supply (UPS). The plant must have very high reliability and ensure a stable power supply also in the event of error conditions that may occur upstream (supply network), and on the load side.

The main system comprises a diesel generator together with UPS. The delivery of an optional system is included in the tender contest. This delivery includes a combined system; Diesel Rotary UPS (DRUPS).

The power supply shall be installed in new buildings and rooms designated for this purpose.

The expected capacity is in the range of 300-600 kVA.

The assignment consists of delivering a total of 7 similar plants, spread over the period 2024-2028. The plants are to be placed in 7 Norwegian municipalities. The supplier must carry out detailed engineering design, deliver and install the equipment. The equipment shall also be tested and tried (trial operation) before final takeover.

The equipment and machines must have a long technical life of 20 years or more. It must also be possible to offer a nationwide service agreement.

The manufacturer of equipment for all installations must have a service network in Norway, including factory-authorized mechanics.

II.1.6. CPV code(s)

45315300 Electricity supply installations, 31154000 Uninterruptible power supplies, 31127000 Emergency generator, 31682510 Emergency power systems, 71321000 Engineering design services for mechanical and electrical installations for buildings, 50710000 Repair and maintenance services of electrical and mechanical building installations

II.1.7. Information about subcontracting

The tenderer has to indicate in the tender any share of the contract it may intend to subcontract to third parties and any proposed subcontractor, as well as the subject-matter of the subcontracts for which they are proposed

The tenderer has to indicate any change occurring at the level of subcontractors during the execution of the contract

II.1.8. Lots

This contract is divided into lots: yes

Tenders may be submitted for all lots

II.1.9. Information about variants

Variants will be accepted: no

II.2. Scope of the procurement

II.2.1. Total quantity or scope

The assignment consists of delivering a total of 7 similar plants, spread over the period 2024-2028. The plants are to be placed in 7 Norwegian municipalities. The supplier must carry out

detailed engineering design, deliver and install the equipment. The equipment shall also be tested and tried (trial operation) before final takeover.

II.2.2. Information about options

Options: yes

Description of options: The assignment consists of delivering a total of 7 similar plants, spread over the period 2024-2028. The plants are to be placed in 7 Norwegian municipalities. The supplier must carry out detailed engineering design, deliver and install the equipment. The equipment shall also be tested and tried (trial operation) before final takeover.

One location is included in the main contract, while the remaining 6 plants are optional.
