2.1. Procedure

Title: EU space Data (Galileo and Copernicus) Integration to support fisheries control

Description: This procurement implements a Pilot Project. The pilot project will define minimum technical, operational and regulatory requirements for the integration of EU Space data (Galileo and Copernicus) to support fisheries control. Currently there are no standards and no regulations for the use of GNSS (e.g. Galileo authentication) and Copernicus services (SAR and optical images) to be used for law enforcement. The project will contribute to the work of European Committees for drawing up standards in the field of fisheries control.
