II.1.4. Short description

The University of Jyväskylä (JYU) is planning the purchase of a bench-scale Hydrometallurgical Process Facility. In our research, we develop methods for the recovery of metals from different waste materials, for example electronic waste. This Facility will allow us to study the scalability of our recovery processes in larger scale. Modularity of the Facility is important for a variety of research interests with different starting materials and recovery

processes. Contracting authority (JYU) may suspend the procurement procedure if the tenders exceed the budget available for the procurement.
