---

**Section II: Object**

**II.1. Scope of the procurement**

**II.1.1. Title**

Extending of the Existing 400/150/33kV Substation Råbäcken  
Reference number: UH-2019-12

**II.1.2. Main CPV code**

09300000 Electricity, heating, solar and nuclear energy

**II.1.3. Type of contract**

Works

**II.1.4. Short description**

MBN is currently planning to expand its grid to be able to connect more wind power production onto the national grid. Through this invitation to apply for qualification, MBN invites interested

parties to apply for qualification to tender for a contract for the works of extending of the existing 400/150/33kV substation Råbäcken. The works include the design, delivery, installation and commissioning of the 400/150/33kV substation extension, including:

- (i) the extension of a 400kV double busbar system,
- (ii) the supply and installation of one 400kV transformer bay,
- (iii) the supply and installation of a 130kV double busbar system for five 130kV bays, and
- (iv) the supply and installation of one 130kV transformer bay, two 130kV overhead line bays, two 130kV MSCDN bays and one sectionalizer bay and ancillary works.

These extension works will become part of the existing and operational substation Råbäcken, connecting onto the national (400kV) grid of the TSO Svenska Kraftnät.

#### **II.1.5. Estimated total value**

#### **II.1.6. Information about lots**

This contract is divided into lots: no

### **II.2. Description**

#### **II.2.2. Additional CPV code(s)**

09300000 Electricity, heating, solar and nuclear energy, 09310000 Electricity, 31680000 Electrical supplies and accessories, 31682210 Instrumentation and control equipment

#### **II.2.3. Place of performance**

NUTS code: SE Sverige

NUTS code: SE3 Norra Sverige

NUTS code: SE33 Övre Norrland

NUTS code: SE332 Norrbottens län

#### **II.2.4. Description of the procurement**

Markbygden Net AB (MBN) is the contracting entity. MBN's grid connects wind farms in the Markbygden area, outside Piteå, to the national grid. MBN is currently planning to expand its grid to be able to connect more wind power production onto the national grid.

Through this invitation to apply for qualification, MBN invites interested parties to apply for qualification to tender for a contract for the works of extending of the existing 400/150/33kV substation Råbäcken. The works include the design, delivery, installation and commissioning of the 400/150/33kV substation extension, including:

- (i) the extension of a 400kV double busbar system,
- (ii) the supply and installation of one 400kV transformer bay,
- (iii) the supply and installation of a 130kV double busbar system for five 130kV bays, and
- (iv) the supply and installation of one 130kV transformer bay, two 130kV overhead line bays, two 130kV MSCDN bays and one sectionalizer bay and ancillary works.

These extension works will become part of the existing and operational substation Råbäcken, connecting onto the national (400kV) grid of the TSO Svenska Kraftnät. Svenska Kraftnät is the overall manager (Sw. huvudman) of the substation, with MBN acting as manager for the extended part. MBN procures these works on behalf of itself and Svenska Kraftnät. MBN anticipates the party awarded this contract to start works at site in the spring of 2020 and energization of the works to occur in the summer of 2021.

#### **II.2.5. Award criteria**

Criteria below

Price

#### **II.2.6. Estimated value**

### **II.2.7. Duration of the contract, framework agreement or dynamic purchasing system**

Start: 31/01/2020 End: 30/06/2021

This contract is subject to renewal: no

### **II.2.10. Information about variants**

Variants will be accepted: no

### **II.2.11. Information about options**

Options: no

### **II.2.13. Information about European Union funds**

The procurement is related to a project and/or programme financed by European Union funds:  
no

### **II.2.14. Additional information**

## **Section III: Legal, economic, financial and technical information**

---

### **III.1. Conditions for participation**

#### **III.1.2. Economic and financial standing**

Selection criteria as stated in the procurement documents

#### **III.1.3. Technical and professional ability**

Selection criteria as stated in the procurement documents

## **Section IV: Procedure**

---

### **IV.1. Description**

#### **IV.1.1. Type of procedure**

Negotiated procedure with prior call for competition

#### **IV.1.3. Information about a framework agreement or a dynamic purchasing system**

#### **IV.1.8. Information about the Government Procurement Agreement (GPA)**

The procurement is covered by the Government Procurement Agreement: yes

### **IV.2. Administrative information**

#### **IV.2.2. Time limit for receipt of tenders or requests to participate**

Date: 23/10/2019 Local time: 23:55

#### **IV.2.3. Estimated date of dispatch of invitations to tender or to participate to selected candidates**

#### **IV.2.4. Languages in which tenders or requests to participate may be submitted**

English

#### **IV.2.6. Minimum time frame during which the tenderer must maintain the tender**

Tender must be valid until: 16/04/2020

## **Section VI: Complementary information**

---

### **VI.1.**

**Information about recurrence**

This is a recurrent procurement: no
