Section II: Object

II.1. Scope of the procurement

II.1.1. Title

128-BYM-2022 Operation of municipal lighting and electrical installations.

Reference number: 22/54780

II.1.2. Main CPV code

65320000 Operation of electrical installations

II.1.3. Type of contract

Services

II.1.4. Short description

The Agency for Urban Environment is responsible for Oslo Municipality's obligations concerning urban environment, including the management and operation of Oslo Municipality's forests and recreational areas, streets/roads, sports facilities, central parks, urban spaces, and large, connected recreational areas, including footpaths, islands in inner Oslo fjord, and the

beach zone. The Agency's goal is to make Oslo a safe, beautiful, environmentally friendly and active city. The procurement is being made in order to ensure proper operation and efficient error and deviation correction in the municipality's lighting installations. The procurement will ensure that the lighting installations are properly maintained and safe, and that they meet inhabitants' expectations that outdoor lighting always works.

II.1.6. Information about lots

This contract is divided into lots: no

II.1.7. Total value of the procurement

Value excluding VAT: 250 000 000,00 NOK

II.2.3. Place of performance

NUTS code: NO081 Oslo

II.2.4. Description of the procurement

The procurement is being made in order to ensure proper operation and efficient error and deviation correction in the municipality's lighting installations. The procurement will ensure that the lighting installations are properly maintained and safe, and that they meet inhabitants' expectations that outdoor lighting always works.

The contract work consists of operational services for outdoor lighting for roads, parks, lit ski tracks, and sports facilities managed by the Agency for Urban Environment. Furthermore, the contract work will cover the operation of municipal electrical installations. Improvements after injunctions from inspection cases in electrical installations are also included in the contract work. If required, the chosen tenderer must be able to deliver foundations, cables, earth cables, posts and masts, as well as electrical cupboards that will be part of the procurement. The contracting authority's other contracts will be used if outdoor fixtures and control systems are required when carrying out the contract work.

The lighting installations in Oslo mainly consist of approx. 62,500 lighting points, 950 ignition cupboards, event cupboards, and distribution, 5,500 connection cupboards, 810 km aerial cable network, and 1,180 km cable network.

Oslo Municipality has approx. 110 km lit ski tracks and several lit ski and ski-play areas, as well as approx. 110 sports facilities, and 50 event cupboards for supply to different events. In addition, the contract work includes error and deviation correction of lights and Real Time Information Sign (SIS) in some stops for buses and trams.

See the tender documentation for further information.

II.2.5. Award criteria

Quality criterion - Name: Quality / Weighting: 30

Quality criterion - Name: Environment / Weighting: 30

Price - Weighting: 40

II.2.11. Information about options

Options: no

II.2.13. Information about European Union funds

The procurement is related to a project and/or programme financed by European Union funds:
no

II.2.14. Additional information

The total contract value is estimated and applies for a contract length of 4 years + possible exercise of an option to extend the contract by up to 2 years.

Section IV: Procedure

IV.1. Description

IV.1.1. Type of procedure

Open procedure
