### **Section III: Legal, economic, financial and technical information**

---

### **III.1. Conditions for participation**

#### **III.1.1. Suitability to pursue the professional activity, including requirements relating to enrolment on professional or trade registers**

List and brief description of conditions:

Requirement:

The tenderer shall be a legally established company

Documentation:

Norwegian tenderers: Company Registration Certificate

Foreign companies: Verification that the company is registered in a trade index or a register of business enterprises as prescribed by the law of the country where the company is established.

#### **III.1.2. Economic and financial standing**

List and brief description of selection criteria:

Requirement:

Tenderers must have the financial capacity to implement the assignment/contract. This bullet point will be subject to assessment of turnover, annual results, as well as key figures in the balance sheet.

Documentation:

The company's last annual financial statement including notes, the board's annual reports and audit reports, including new information of relevance to the company's accounting figures.

The contracting authority will obtain a credit rating from Experian.

#### **III.1.3. Technical and professional ability**

List and brief description of selection criteria:

Requirement:

Tenderers shall have a quality assurance system/control system.

Documentation requirement:

Documentation of the tenderer's quality assurance system/control system.

If the tenderer is certified, it is sufficient to enclose copies of certificates issued by independent bodies.

Requirement:

Tenderers must have an environment management system.

Documentation:

— An account of the tenderer's environmental management system. If the tenderer is certified, it is sufficient to attach copies of certificates issued by the independent body.

Requirement:

Experience is required from equivalent assignments. Equivalent assignments mean experience from automatic logging of pore pressure/ground water level and presenting the values in a website system.

Documentation:

An overview of the tenderer's equivalent assignments executed over the past 5 years. The summary must indicate the contracting authority, name of a contact person, the nature of the work, scope and value, as well as the time and location of the execution of the work.

Requirement:

Tenderers shall have sufficient technical, personnel and organisation capacity to fulfil the assignment.

Documentation:

Account of the available workforce (administrative management and other employees), machines, materials and technical equipment that the tenderer has at his disposal for fulfilment of the contract.
