II.2. Description

II.2.3. Place of performance

NUTS code: NO012 Akershus

II.2.4. Description of the procurement

Oppegård Municipality has a need for a contract for diving services for inspections of minor installations and raising. Oppegård Municipality has 2 lakes as well as a coast line that is relevant for diving services. Oppegård has 2 technical facilities in Kolbotnvannet, which must be regularly inspected and maintained. In Gjersjøen, which is the drinking water source, the installation for water intake must be inspected and maintained. We are now having water pipelines installed in Bunnefjord, which could also require inspections. Other unforeseen needs will also be covered by this contract, for example, removing vehicles or boat wrecks from the water.

The contract is estimated to have a value of 500 000 NOK -1 500 000 NOK per annum excluding VAT, but we expect it to be approx. 500 000 NOK per annum, as some work has been done on the installation in Gjersjøen, so the need for repairs and maintenance is expected to be less in the coming years. Problems with technical installations cannot be foreseen however, nor other unforeseen assignments, so the need could increase.
