Tenders or requests to participate must be submitted electronically via: <https://permalink.mercell.com/185329113.aspx>

I.6. Main activity

Water

Section II: Object

II.1. Scope of the procurement

II.1.1. Title

E01 - Water and sewage lines sea Reserve water supply Bærum - Nesodden

II.1.2. Main CPV code

45244000 Marine construction works

II.1.3. Type of contract

Works

II.1.4. Short description

Nesodden municipality needs to strengthen its drinking water supply. The municipality has an existing water line running from Bærum to Nesodden, but the transport capacity will soon be

insufficient. The project involves laying a new line between Rolfsbukta in Bærum municipality and Varden in Nesodden municipality. At Nesodden, the water line will first be brought ashore at Flaskebekk wharf, where a pressure boosting station is planned. The station will be established in connection with contract 02 - Land-Based works From Flaskebekk wharf, the water line is to be laid further to Kavringstrand and tied into the water line that goes out to sea in connection with contract 02. In addition to the water line, a pump waste water line will be laid from Flaskebekk to Kavringstrand. The existing water line from Bærum will also be replaced due to the planned construction of new leisure facilities, which will conflict with the line.

II.1.5. Estimated total value

Value excluding VAT: 50 000 000,00 NOK

II.1.6. Information about lots

This contract is divided into lots: no

II.2. Description

II.2.2. Additional CPV code(s)

44161200 Water mains, 45231300 Construction work for water and sewage pipelines, 45240000 Construction work for water projects, 45241100 Quay construction work

II.2.3. Place of performance

NUTS code: NO082 Viken

II.2.4. Description of the procurement

The procurements includes:

- Establishment of a 400 mm PE sea line for water from Rolfsbukta at Fornebu to Flaskebekk wharf and on to Varden. Demands may be made for flushing in trawl zones, and SESU-XL pipes are therefore described in these stretches.
- Establishment of a 140 mm PE sea line for waste water from Flaskebekk wharf to Kavringen pst. Demands may be made for flushing in trawl zones, and SESU-XL pipes are therefore described in these stretches.
- Splicing and conversion of the existing 250 mm PE sea line for water which is currently located in Fornebukta and which comes into conflict with the new planned leisure island. Since regulation of the leisure island has not been adopted by Bærum municipality as of June 2022, rerouting of this section may be withdrawn from the project. If the conversion is carried out, the construction contractor requires that this be done after the new transport system has been established, i.e. that both E01 and E02 must be completed.
- Landing with excavation at Flaskebekk wharf at Nesodden to the interface marked on the drawing.

The works are put away in General contracting in accordance with NS 8405 with minor additions and changes as stated in the tender documentation in annex 01. The project is to be carried out as a construction contract based on NS 3420 (202201) post description, annex 02. Rules for holding the contest and qualification requirements appear in the tender documentation, see the appendices.

Assessing the value of the procurement is considered to be difficult in light of the current uncertainty in the market due to, among other things, inflation, fluctuating material, energy and fuel prices and the generally uncertain global situation caused by the war in Ukraine. It is therefore assumed that the procurement may possibly exceed the EEA threshold value even if the client has previously been presented with a cost estimate well below the threshold value.

II.2.5. Award criteria

Price is not the only award criterion and all criteria are stated only in the procurement documents

II.2.6. Estimated value

Value excluding VAT: 50 000 000,00 NOK

II.2.7. Duration of the contract, framework agreement or dynamic purchasing system

Start: 14/11/2022 End: 30/06/2023

This contract is subject to renewal: no

II.2.10. Information about variants

Variants will be accepted: no

II.2.11. Information about options

Options: no

II.2.13. Information about European Union funds

The procurement is related to a project and/or programme financed by European Union funds:
no

II.2.14. Additional information

Section III: Legal, economic, financial and technical information

III.1. Conditions for participation

See the tender documentation.

III.2.3. Information about staff responsible for the performance of the contract

Obligation to indicate the names and professional qualifications of the staff assigned to performing the contract

Section IV: Procedure

IV.1. Description

IV.1.1. Type of procedure

Open procedure

IV.1.3. Information about a framework agreement or a dynamic purchasing system

IV.1.8. Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: no

IV.2. Administrative information

IV.2.2. Time limit for receipt of tenders or requests to participate

Date: 03/10/2022 Local time: 09:00

IV.2.3. Estimated date of dispatch of invitations to tender or to participate to selected candidates

IV.2.4. Languages in which tenders or requests to participate may be submitted

English, Norwegian, Swedish

IV.2.6. Minimum time frame during which the tenderer must maintain the tender

Duration in months: 4 (from the date stated for receipt of tender)

IV.2.7. Conditions for opening of tenders

Date: 03/10/2022 Local time: 09:01

Section VI: Complementary information

VI.1. Information about recurrence

This is a recurrent procurement: no

VI.3. Additional information

See the tender documentation.

VI.4. Procedures for review

VI.4.1. Review body

Official name: Follo og Nordre Østfold tingrett

Town: 1401 Ski

Country: Norway

VI.5.

Date of dispatch of this notice
