

Germany-Eschborn: Foreign economic-aid-related services
OJ S 212/2018 03/11/2018
Contract award notice
Services

Legal Basis:

Directive 2014/24/EU

Section I: Contracting authority

I.1. Name and addresses

Official name: Deutsche Gesellschaft für Internationale Zusammenarbeit GIZ) GmbH

Postal address: Dag-Hammarskjöld-Weg 1-5

Town: Eschborn

NUTS code: DE71A Main-Taunus-Kreis

Postal code: 65726

Country: Germany

Contact person: Maria Schabicki

E-mail: maria.schabicki@giz.de

Telephone: +49 6196-792570

Internet address(es):

Main address: <http://www.giz.de>

I.4. Type of the contracting authority

Body governed by public law

I.5. Main activity

Other activity: International Development Cooperation

Section II: Object

II.1. Scope of the procurement

II.1.1. Title

81226301-Building Energy Efficiency Code

Reference number: 81226301

II.1.2. Main CPV code

75211200 Foreign economic-aid-related services

II.1.3. Type of contract

Services

II.1.4. Short description

Contributions to state adoption and implementation of the Nigerian Building Energy Efficiency Code (BEEC) including training and energy auditing of public buildings.

II.1.6. Information about lots

This contract is divided into lots: no

II.1.7.

Total value of the procurement

Value excluding VAT: 523 084,75 EUR

II.2. Description

II.2.3. Place of performance

NUTS code: 00 Other or Not Specified

Main site or place of performance: Nigeria

II.2.4. Description of the procurement

1) Background

I. Energy Efficiency in Buildings

Giving the great potential of energy efficiency in buildings in reducing energy consumption, improving energy access and ensuring energy security in Nigeria, the Nigerian Energy Support Programme (NESP) in its first phase (March 2013 – February 2018) conducted a baseline study on energy efficiency in buildings in Nigeria which played a role in defining core strategies in promoting energy efficiency in buildings. NESP supported with the following:

a) Building Energy Efficiency Code (BEEC): the implementation of the strategies mentioned above, led to the development of the Building Energy Efficiency Guideline (BEEG) for Nigeria, which provides information to building sector professionals on how to design and construct energy efficient buildings. The BEEG set the basis for the development of the BEEC. NESP supported the Federal Ministry of Power, Works and Housing (FMPWH) in developing the BEEC which provides building sector professionals with minimum energy requirements for new residential and office buildings in Nigeria. The code which was launched in August 2017 focuses on low cost minimum energy efficiency requirements and addresses parts of the building such as, the building envelope, window to wall ratio, roof insulation, energy efficient lighting and air conditioning. The code consists inter alia of the following elements; minimum energy efficiency requirements and verification methods, calculation methods and tools, building energy label and energy efficiency incentives, control and enforcement, qualification of experts and review and adaptation;

b) Energy Audit in the Federal Ministry of Power, Works and Housing (FMPWH): NESP supported the FMPWH to conduct an energy audit on the Ministry's building. The recommendations of the audit carried out are currently been implemented in the building. This shows the government's commitment in promoting EE in buildings and has the potential of promoting market development of energy efficiency products and services.

In its second phase, NESP intends to support at least three (3) and a maximum of five (5) states to ensure that they are able to adopt the recommendations of the code to the design and construction of new buildings. In addition, more energy audits of public buildings will be carried out by local energy auditors and managers who will be trained with support from NESP.

II. Standards for Air conditioners

NESP in its first phase supported the Standards Organisation of Nigeria (SON) to develop and implement Minimum Energy Performance Standards (MEPS) for air conditioners and a national energy efficiency label for household electrical appliances and equipment. Support towards the development of additional standards will also be provided in the second phase of the programme.

2) Description of the assignment

NESP is looking for a multi-disciplinary team of international consultants to provide support to selected states in the adoption and implementation of the Nigerian Building Energy Efficiency Code (BEEC) including training and energy auditing of public buildings.

The consultants will support NESP in providing advice to its partners – including, but not limited to FMPWH (Housing sector), the state agencies responsible for building plan approvals, professionals in the construction Industry (e.g. architects, engineers etc.) The period of the assignment will be 16,7 months, within the period October 2018 to November 2020. The number of person days estimated for the assignment is 500, out of which 165 are field days.

II.2.5. Award criteria

Quality criterion - Name: According to the technical assessment grid of offers (Document 10 of the Tender Documents) / Weighting: 70

Price - Weighting: 30

II.2.11. Information about options

Options: yes

Description of options:

In the context of an extension of the program or a subsequent program the contract could be extended by up to 24 months. In the case of extension of the contract the same competencies and number of short-term experts as requested by this current ToR might be required. Within the framework of the basic project described in the Terms of Reference, GIZ reserves the right to award contracts for additional services of this type to the successful company in this procedure by means of a negotiated procedure without a prior call for competition, or to enter into a follow-on pursuant to the criteria listed in the Terms of Reference and the contract.

II.2.13. Information about European Union funds

The procurement is related to a project and/or programme financed by European Union funds: yes

Identification of the project: See PAGODA 2- Logframe (Document No. 17 of the Tender Documents)

II.2.14. Additional information

Section IV: Procedure

IV.1. Description

IV.1.1. Type of procedure

Open procedure

IV.1.3. Information about a framework agreement or a dynamic purchasing system

IV.1.8. Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: yes

IV.2. Administrative information

IV.2.1. Previous publication concerning this procedure

Notice number in the OJ S: [2018/S 132-300890](#)

IV.2.8. Information about termination of dynamic purchasing system

IV.2.9. Information about termination of call for competition in the form of a prior information notice

Section V: Award of contract

Title:

81226301-Building Energy Efficiency Code

A contract/lot is awarded: yes

V.2. Award of contract

V.2.1. Date of conclusion of the contract

18/10/2018

V.2.2. Information about tenders

Number of tenders received: 2

The contract has been awarded to a group of economic operators: yes

V.2.3. Name and address of the contractor

Official name: Danish Energy Management A/S (DEM)

National registration number: 12759274

Postal address: Vestre Kongevej 4A

Town: Viby J

NUTS code: DK Danmark

Postal code: 8260

Country: Denmark

The contractor is an SME: yes

V.2.3. Name and address of the contractor

Official name: Econoler

Postal address: 160 Saint-Paul St., Suite 200

Town: Quèbec

NUTS code: 00 Other or Not Specified

Postal code: QC G1K 3W1

Country: Canada

The contractor is an SME: yes

V.2.4. Information on value of the contract/lot

Total value of the contract/lot: 523 084,75 EUR

V.2.5. Information about subcontracting

Section VI: Complementary information

VI.3. Additional information

VI.4. Procedures for review

VI.4.1. Review body

Official name: Bundeskartellamt- Vergabekammer des Bundes

Postal address: Villemomblerstraße 76

Town: Bonn

Postal code: 53123

Country: Germany

Telephone: +49 22894990

Fax: +49 2289499163

Internet address: <http://www.bundeskartellamt.de>

VI.4.3. Review procedure

Precise information on deadline(s) for review procedures:

According to Article 160, Section 3 of the German Act Against Restraint of Competition, application for re-examination is not permissible insofar as:

- 1) The applicant has identified the claimed infringement of the contract award regulations before submitting the application for re-examination and has not submitted a complaint to the commissioning party within a period of 10 calendar days; the expiry of the period pursuant to Article 134, Section 2 remains unaffected,
- 2) Complaints of infringements of contract award regulations that are evident in the notice are not submitted to the commissioning party at the latest by the expiry of the deadline for the application specified in the notice or by the deadline for the submission of bids,
- 3) Complaints of infringements of contract award regulations that first become evident in the tender documents are not submitted to the commissioning party at the latest by the expiry of the deadline for application or for the submission of bids,
- 4) More than 15 calendar days have elapsed after receipt of the notification from the commissioning party that it is unwilling to redress the complaint.

Sentence 1 does not apply in the case of an application to determine the invalidity of the contract in accordance with Article 135, Section 1 (2). Article 134, Section 1, Sentence 2 remains unaffected.

VI.4.4. Service from which information about the review procedure may be obtained

Official name: Vergabekammer des Bundes beim Bundeskartellamt

Postal address: Villemomblerstraße 76

Town: Bonn

Postal code: 53123

Country: Germany

Telephone: +49 22894990

Fax: +49 2289499163

Internet address: <http://www.bundeskartellamt.de>

VI.5. Date of dispatch of this notice

01/11/2018
