II.2.4. Description of the procurement

The new Fast Rest Rescue boats (FRB) are supposed to be built with fixed hull with fenders, and inboard diesel engines.

They shall be built for a crew of 4, and 6 passengers.

The FRB will be used as On Scene coordinator, which requires more than normally used communication equipment.

The FRB will be used for search and rescue operations, meaning the FRB shall be equipped with additional means of search and rescue and with medical treatment equipment.

The FRB will be used in rough weather, meaning that it shall provide a safe and reliable platform for the search and rescue operation. This means good sailing properties in bad weather and that all essential equipment has to be duplicated.

The FRB shall also in case of capsizing, be self-righting and be able operate safely following a capsize.

The FRB will be used in shallow waters, and beaching on a sandy beach with high speed is a part of normal operation.

Two of the FRB will be stationed at lifeboat stations that will be launching the FRB from the beach, using a tractor and carriage.

The FRB shall be approved by Danish Maritime Authority (DMA) for its intended purpose.

The FRB shall be designed / built for a lifespan of 15-20 years, with approximately 300 service hours pr. Year.

The FRB is used in Search and rescue operations, that can last several hours, meaning that propulsion, but also the crew facilities must support this.

The FRB crew are normally wearing immersion suits and gloves while operating the FRB. The FRB shall be suitable for this.

The FRB Shall have a semi open heated Wheelhouse for crew shelter and shock mitigated seats, , but at the same time must provide good view during search and rescue operations.

The wheelhouse must be designed with openings so that the crew can evacuate in case the FRB is capsizing.

The FRB shall be buildt and used under the rules as a civilian Vessel, according the rules from Danish Maritime Authority.
