General public services

Section II: Object

II.1. Scope of the procurement

II.1.1. Title

Evaluation of System for New Methods in the Specialist Health Services

Reference number: 20/2180

II.1.2. Main CPV code

73200000 Research and development consultancy services

II.1.3. Type of contract

Services

II.1.4. Short description

New methods are a system for the implementation and out phasing methods for the specialist health service. In this context, the 'Specialist health service' includes all public or publicly funded hospitals and hospital services.

The evaluation of the system for new methods shall identify and describe whether the current organisation of, and case management processes in the system are appropriately designed and suitable for achieving the defined objectives. Based on the mapping and description, the evaluation shall identify barriers and possible changes in organisation and case management, as well as assess and propose measures for the system to improve basic purposes and the need for transparency, trust and legitimacy in the health service and the population. To the extent possible and relevant, the evaluation should include comparisons with similar systems in other countries.

II.1.6. Information about lots

This contract is divided into lots: no

II.1.7. Total value of the procurement

Value excluding VAT: 4 000 000,00 NOK

II.2. Description

71317210 Health and safety consultancy services, 73210000 Research consultancy services, 73220000 Development consultancy services

II.2.3. Place of performance

NUTS code: NO011 Oslo

Main site or place of performance: Oslo.

II.2.4. Description of the procurement

New methods are a system for the implementation and out phasing methods for the specialist health service. In this context, the 'Specialist health service' includes all public or publicly funded hospitals and hospital services. The term method is defined as all measures used to prevent, assess, diagnose and treat illnesses, as well as measures for rehabilitation of patients and the organisation of health services. Examples of methods are medicine indications, medical equipment and medical and surgical procedures and diagnostic tests.

The evaluation of the system for new methods shall identify and describe whether the current organisation of, and case management processes in the system are appropriately designed and suitable for achieving the defined objectives. Based on the mapping and description, the evaluation shall identify barriers and possible changes in organisation and case management, as well as assess and propose measures for the system to improve basic purposes and the need for transparency, trust and legitimacy in the health service and the population. To the extent possible and relevant, the evaluation should include comparisons with similar systems in other countries.

II.2.5. Award criteria

Quality criterion - Name: Expertise of the tendered personnel / Weighting: 30 %

Quality criterion - Name: Assignment comprehension / Weighting: 50 %

Price - Weighting: 20 %
