2.1. Procedure

Title: MANAGED IT SERVICES 2026

Description: Amongst the new contract that could potentially be launched in this FwC, a key focus will be on enhancing cybersecurity services. The foremost goal for this procurement is to act as the successor to previous FwC titled CAJU.2022.OP.02. Drawing on the achievements the previous contract(s), the focus of this new FwC will not be on introducing a wide range of new innovations; instead, it aims to enhance and build upon the foundational elements of IT Managed Services for the Joint Undertakings, with a specific emphasis on increasing efficiency. A significant development is its broader scope, encompassing all IT professional services. This new procurement strategy is designed to establish a contract that empowers the Joint Undertakings and other involved entities to effectively use the pre-existing procurement channels from the Commission while covering the complete range of IT professional services needed for the operations.
