II.2.14. Additional information

Section III: Legal, economic, financial and technical information

III.1. Conditions for participation

III.1.1.

Suitability to pursue the professional activity, including requirements relating to enrolment on professional or trade registers

List and brief description of conditions:

The company must be legally registered.

Norwegian companies: Company registration certificate

Foreign companies: Registration certificate in a professional register as determined by legislation in the country where the tenderer is established.

III.1.2. Economic and financial standing

List and brief description of selection criteria:

Tenderers must have the financial capacity to comply with the contractual obligations.

Minimum level(s) of standards possibly required:

The annual accounts including Annual Report and Auditor's Report for the last three fiscal years.

III.1.3. Technical and professional ability

List and brief description of selection criteria:

Documented competence as stated in SAK chapter 11 or equivalent, in the required development classes for the project.

Relevant experience from assignments of at least an equivalent size and complexity.

A quality assurance/management system that is sufficient to fulfil the contract

An environmental management system that is sufficient to fulfil the contract

Satisfactory competence in key personnel who will be part of and participate in the assignment organisation.

Minimum level(s) of standards possibly required:

Central certification or other documentation.

A list of relevant assignments carried out during the last five years. The list must contain information on the scope of the work and references.

Tenderers must give an account of the company's quality assurance/management system that the tenderer has implemented, or plans to use for this delivery. If a tenderer does not have a third party certified system for quality assurance/management, the tenderer must describe the routines and measures that will be implemented for this delivery, and which show that the tenderer has a separate quality assurance/management system and documented goals.

Tenderers must describe the environmental management system that the tenderer has implemented or plans to use for this delivery.

If a tenderer does not have a third party certified system for environmental management, the tenderer must describe the routines and measures that will be implemented for this delivery, and which show that the tenderer has a separate environmental strategy and documented environmental goals.

Information on the education and professional qualifications of the contractor's key personnel, for example CV.
