II.1.4. Short description

Aalto University (in the following "Customer" or "Aalto University") requests a tender for the Data Warehouse Services Partner procurement.

Aalto University has a centralized data warehouse (hereinafter "System"), where reporting and analytical data is collected for both the university's own needs and to enable reporting to

external stakeholders (eg the Ministry of Education). The utilization of data at Aalto University is constantly increasing and digitalization creates new demands for data warehouse, reporting and analytics.

With this tendering, we seek specialists and experts to carry out tasks related to the development and maintenance of the system. The architectural and consulting services related to the maintenance of both the system and the information contained are in the scope contract. The aim of the tendering is to find a specialist partner who has sufficient resources and previous experience in providing similar services.

Detailed specifications and requirements are described in the invitation to tender and its annexes.
