Body governed by public law

I.5. Main activity

Other activity: Railway operations and infrastructure

Section II: Object

II.1. Scope of the procurement

II.1.1. Title

Procurement of a TMS

Reference number: 201601658

II.1.2. Main CPV code

48140000 Railway traffic control software package

II.1.3. Type of contract

Supplies

II.1.4. Short description

Jernbaneverket is planning the procurement of a new Traffic Management System (TMS) for operating the Norwegian railway network. This is a part of the renewal of the signalling system

based on the ERTMS (European Rail Traffic Management System) standard. The goal is to renew the existing signalling systems on the railway network within 2030. The renewal includes Trackside Systems, Onboard equipment and introduction of TMS.

Procurement of a new TMS includes:

- delivery of one TMS operating and controlling existing and new signalling systems,
- related services (including, but not limited to, design/engineering, installation, integration, testing, approval, training and documentation),
- support services.

The new TMS system will contribute to a uniform, flexible structure for traffic management.

II.1.6. Information about lots

This contract is divided into lots: no

II.1.7. Total value of the procurement

Value excluding VAT: 599 000 000,00 NOK

II.2. Description

II.2.2. Additional CPV code(s)

34632000 Railways traffic-control equipment, 34940000 Railway equipment, 48140000 Railway traffic control software package, 72000000 IT services: consulting, software development, Internet and support

II.2.3. Place of performance

NUTS code: NO Norge

II.2.4. Description of the procurement

Jernbaneverket is planning the procurement of a new Traffic Management System (TMS) for operating the Norwegian railway network. This is a part of the renewal of the signalling system based on the ERTMS (European Rail Traffic Management System) standard. The goal is to renew the existing signalling systems on the railway network within 2030. The renewal includes Trackside Systems, Onboard equipment and introduction of TMS.

Procurement of a new TMS includes:

- delivery of one TMS operating and controlling existing and new signalling systems,
- related services (including, but not limited to, design/engineering, installation, integration, testing, approval, training and documentation),
- support services.

The new TMS system will contribute to a uniform, flexible structure for traffic management.

II.2.5. Award criteria

Quality criterion - Name: Quality / Weighting: 40

Quality criterion - Name: Execution / Weighting: 30

Price - Weighting: 30
