Objective and scope of the procurement

The contest concerns the delivery of X-ray equipment to AKM 2, UiT The Arctic University of Norway.

The x-ray equipment is divided into three components. The following components will be purchased:

Monoplan C-arm with cone-beam function. In practice, does not need to have mobile functionality.

Angiography table for the same setup as component 1.

Single mobile C-arm to serve three laboratories. Mobile functionality is crucial.

The total value of the procurement is anticipated to be NOK 8,000,000 excluding VAT. See the procurement documents for further information.

The maximum value of the procurement is NOK 10,000,000 excluding VAT.

Tenders cannot be submitted for only parts of the contract.

Alternative tenders cannot be submitted. By alternative offers, the contracting authority means offers where the tenderer proposes alternative solutions in relation to the requirement specification that the tender documentation prepares for, and that does not fulfil one or more of the minimum requirements.

Parallel tenders cannot be submitted. A parallel tender means several tenders from the same tenderer, each of which fulfil the minimum requirements. Any parallel tenders must be submitted complete and separately. They will be evaluated as separate tenders in accordance with the stated award criteria.

II.2.5. Award criteria

Price is not the only award criterion and all criteria are stated only in the procurement documents
