II.1.4) Short description:

Lillehammer municipality, henceforth referred to as the contracting authority, invites tenderers to an open tender contest for framework agreements for site machine contractor services.

The contracting authority's objective is to enter into the necessary framework agreements for the provision of services with construction machinery and equipment, means of transport for mass transport, as well as crew and construction management for the municipality.

The municipality uses machine aid for maintenance and rehabilitation assignments, renovation tasks, as well as new works related to roads, parks, water and sewage.

II.2.4) **Description of the procurement:**

The contracting authority requests tenders for contractor services using machines with the necessary additional equipment, transport means, as well as crew in order to carry out assignments within:

- operational assignments;
- maintenance work;
- clearance sites;
- new municipal facilities where the municipality itself is the responsible applicant;
- municipal facilities where the contractor is the responsible applicant and executor.

In such cases construction management will also be a part of the assignment.

Preparation and any follow-up of actual plans and applications that are necessary for carrying out projects.

Construction management

The companies with which an agreement is entered must be able to make all the necessary equipment available for all relevant tasks. This also concerns necessary safety and sign age material. The contractor service requirement can vary from year to year. This also applies to activities during the year.

The municipality has emergency preparedness needs for machine aid in connection with possible breakages (water and drains), caving, damage to the roadway or systems for surface water or similar incidents. In such acute situations the municipality has a need for immediate turn-outs, also outside normal working hours, at weekends and during holidays. See also the point regarding Stand-by given in the tender documentation.
