71631300 Technical building-inspection services, 71521000 Construction-site supervision services, 50710000 Repair and maintenance services of electrical and mechanical building installations

II.2.3. Place of performance

NUTS code: DEZ Extra-Regio NUTS 1

Main site or place of performance: German EEZ (German bight)

II.2.4. Description of the procurement

In order to comply with the Employer's obligations in relation to the interfaces and to ensure a smooth offshore installation phase for all components without disruption to the respective associated contractors, the tendering party plans to establish an Employer's Offshore Service Team (EOST) to carry out all necessary work accordingly. The offshore works shall be performed by Teams of EOST members who will be offshore on a 12/7 basis throughout the entire installation phase of the He Dreht project. In addition, the EOST members shall be coordinated by a coordinator of the contractor who also acts as single point of contact for the Employer's construction management. For the performance of the works, EOST members shall be provided by the tenderer who have the required qualifications and experience and can thus fully cover all required tasks. The tendering party reserves the right to reject people that do not comply with the requirements and qualifications listed in the ITT. In the following sections there is a brief description of the works to be performed (non-exhaustive enumeration) and a preliminary time schedule. All dates may change slightly due to usual project delays. For all works, the tenderer expects between 3 and 9 EOST members. The required numbers will differ during the entire installation phase. Expected time frame of the services is as follows: • Start of services: Between 01.04.2024 and 01.06.2024 (flexible start date) • End of services: 31.12.2025 • Option for prolongation All described services might be required multiple times in different project phases.

1.2.1 Cleaning works The task will be to keep locations clean throughout the entire installation phase to ensure safe access for all parties, including Employer's associated contractors. These cleaning works comprise (not limited to) • Detection and removal of mold • Detection and removal of bird dung

1.2.2 Coating repairs on TP and tower Executed works comprise detection and repair coating damages on the TPs and the tower. EOST Members assigned to this task shall be certified (FROSIO coating inspector or equal).

1.2.3 General repair works • Rectification of damages to ensure safe access (Such deficiencies may occur for example but not limited to the lighting (boat landing, service platform), self-closing gates, gratings, barriers around electrical installations, water inside TP, TP cover repairs, etc.) • Repairs of Fall Arrest Systems (YoYos) • Repair /replacement & disassembly of Temporary Seaming Lights • Check/repair of earthing connections

1.2.4 Regular inspections • comprise detection of deficiencies that require immediate rectification and • regular statutory inspections of equipment/appurtenances (e.g., not limited to, anchor points, ladders, fire extinguishers etc.)

1.2.5 Check (measurement and general condition) of the TP flange comprises measurement of • Angular displacement • Overall and local flatness of inner and outer edge • Roundness • Ovality

1.2.6 Discontinuous Grout Monitoring • comprises installation of the measuring device including cleaning of MP and TP surface before installation • Initial measurement by means of manual measurement

1.2.7 Removal of transport and installation equipment • Removal of vertical jacks • Loosening bolted connections of lifting lugs • Removal of hoses of horizontal jacks

1.2.8 Davit Hoist Executive works comprise maintenance, repairs and checks.

1.2.9 Troubleshooting: IT/OT, Main Automation Contractor (MAC), 5G, On-shore/Offshore Multi Color System, Communication Devices

1.2.10 Supporting Services Supporting services mean the support the Employer and

or its associated works contractors during several offshore operations. During these activities, the personnel of the Employer and/or one of his contractors are already present and the EOST only has to provide one or a maximum of 2 additional persons. These services comprise • Condition ascertainties • Lists of open points/ Checks of rectified damages • Taking Overs of Associated Works Contractors • Support of installation/commissioning/maintenance of autonomous energy supply, radio link (bi-directional), TETRA/VHF radio system • Support of commissioning of low voltage (LV) system on the TP • Support of troubleshooting of ICCP and reference cells 1.2.11 Potential additional scope Scope that is not explicitly described but covered by the required qualifications of the EOST members.

II.2.11. Information about options

Options: yes

Description of options:

The employer reserves the right to increase the amount of needed team members

II.2.13. Information about European Union funds

The procurement is related to a project and/or programme financed by European Union funds:

no

II.2.14. Additional information

This Tender Process is managed by EnBW Energie Baden-Württemberg AG ("EnBW") on behalf of EnBW He Dreht GmbH (the "Employer"). The Employer is the owner of the Offshore Wind Park named "EnBW He Dreht" for which the Employer invites for tenders regarding various goods and services.

Notice number in the OJ S: [2023/S 032-092836](#)

IV.2.8. Information about termination of dynamic purchasing system

IV.2.9. Information about termination of call for competition in the form of a periodic indicative notice

Section V: Award of contract

Contract No: 1

Title:

Offshore Wind Farm (OWF) He Dreht - CM EOST

A contract/lot is awarded: yes

V.2. Award of contract

V.2.1. Date of conclusion of the contract

21/08/2023

V.2.2. Information about tenders

Number of tenders received: 8

Number of tenders received from SMEs: 6

Number of tenders received from tenderers from other EU Member States: 2

Number of tenders received from tenderers from non-EU Member States: 1

Number of tenders received by electronic means: 8

The contract has been awarded to a group of economic operators: no

V.2.3. Name and address of the contractor

Official name: OIS Offshore Industrie Service GmbH

Postal address: Hundsburgallee 10

Town: Rostock

NUTS code: DE803 Rostock, Kreisfreie Stadt

Postal code: 18106

Country: Germany

The contractor is an SME: yes

V.2.4. Information on value of the contract/lot

V.2.5. Information about subcontracting

V.2.6. Price paid for bargain purchases

Section VI: Complementary information

VI.3. Additional information

VI.4. Procedures for review

VI.4.1. Review body

Official name: Vergabekammer Baden-Württemberg

Postal address: Durlacher Allee 100

Town: Karlsruhe

Postal code: 76137

Country: Germany

Telephone: +49 721-926-8730

Fax: +49 721-926-3985

VI.5. Date of dispatch of this notice

25/08/2023
