2. Procedure

2.1. Procedure

Title: Integration of a Multi-Category E-Shop System

Description: At Zurich Airport, a wide range of products is required for various operational areas. To enable their future procurement in a digital and efficient manner, a powerful and flexibly scalable online shop provided by a supplier is to be integrated with our SAP S/4HANA system via an OCI interface. Experienced service providers are sought to technically and organisationally integrate, configure, customise, support and further develop an existing multi-category online shop with OCI connectivity. The objective is to conclude a framework agreement with the two highest-ranked bidders according to the award criteria for a term of five years, establishing a long-term partnership in the field of procurement and OCI-based e-shop services.
