2.1. Procedure

Title: Request for Tenders for Design, Build and Implementation of a Modern Methods of Construction Software Platform

Description: The aim of the platform is to promote the value of Modern Methods of Construction (MMC) to all stakeholders at both a national and local level. This means that there will be a wide array of end user profiles that the platform will need to cater for. The foundation of the platform will be geared towards the promotion of careers and providing key information to professionals within the construction industry. The goal of the platform's information will serve the purpose of showing a clear pathway for sustainable career development for construction professionals. The platform will need to showcase MMC and what kind of jobs and roles are both required and available. End users will need to rapidly understand the resources and opportunities available to upskill and meet the criteria of roles that would exist within the realm of MMC.
