Services

II.1.4. Short description

Establishment of a large-scale and representative household panel, conducting 3 annual surveys on the building sector and a one-time survey on mobility behavior among German Households.

II.1.5. Estimated total value

II.1.6. Information about lots

This contract is divided into lots: no

II.2. Description

II.2.3. Place of performance

NUTS code: DEA13 Essen, Kreisfreie Stadt

II.2.4. Description of the procurement

RWI - Leibniz Institute for Economic Research is participating in the Kopernikus project 'Evidence-based Assessment for the Design of the German Energy System Transformation', which is funded by the Federal Ministry of Education and Research (BMBF). An essential component of this project is the establishment of a large-scale and representative household panel, which will be used to systematically collect energy-related data of private households. In addition, the project will analyze the respondents preferences regarding different climate protection instruments in the building sector. Furthermore, a sub-sample of the respondents will be asked about their mobility behavior in a separate survey. For this purpose, RWI is searching a partner institution, which is able to provide the following services:

- conducting (for the time being) 3 annual surveys on the building sector and a one-time survey on mobility behavior among German households;
- in each panel wave, we expect a net sample size of 15 000 respondents, who are representative for German households in their socio-economic characteristics; for the additional survey on mobility, we aim for a net sample of 6 000 respondents;
- offline recruitment of the panel;
- measures to reduce unit non-response in all survey waves;
- measures to reduce item non-response, especially when collecting billing data;
- survey in German language;
- expected survey duration of approx. 15-20 minutes;
- embedding of discrete choice experiments, in which the respondents are randomly split into different experimental groups and receive different sets of information;
- incentive of the experiments through the randomized allocation of vouchers/ payments;
- recruiting of the sample and programming of the survey including (at least two) feedback loops on the questionnaire design;
- pretest of the surveys;
- presentation of the collected data in georeferenced form;
- compliance with the General Data Protection Regulation (GDPR).

You as a partner institution will support RWI both by recruiting the respondents and by programming the questionnaire. RWI will design the questionnaire itself and discuss it continuously in close cooperation with you. RWI will provide the first version of the questionnaire 3 months prior to the expected start of the survey, such that it can be sufficiently revised and programmed in feedback loops and tested afterwards. The field time should be about four weeks. The first survey is scheduled to go into the field in spring 2021, the third survey in spring 2023.

II.2.5.

Award criteria

Price is not the only award criterion and all criteria are stated only in the procurement documents

II.2.6. Estimated value

Value excluding VAT: 300 000,00 EUR

II.2.7. Duration of the contract, framework agreement or dynamic purchasing system

Duration in months: 28

This contract is subject to renewal: no

II.2.10. Information about variants

Variants will be accepted: no

II.2.11. Information about options

Options: no

The procurement is related to a project and/or programme financed by European Union funds:
no

II.2.14. Additional information

Section III: Legal, economic, financial and technical information

III.1. Conditions for participation

III.1.1. Suitability to pursue the professional activity, including requirements relating to enrolment on professional or trade registers

List and brief description of conditions:

Tenderers must prove that they are allowed to pursue the professional activity necessary to carry out the work subject to this call for tenders.

III.1.2. Economic and financial standing

List and brief description of selection criteria:

Tenderers must prove their legal, regulatory, economic, financial, technical, and professional capacity to carry out the work subject to this procurement procedure. Tenderers may rely on the capacities of other entities, regardless of the legal nature of the links which it has with them. In that case, tenderers must prove that they will have at their disposal the resources necessary for the performance of the contract, for example, by producing an undertaking on the part of those entities to place those resources at its disposal. The request must include the proportion of the contract that the tenderer intends to subcontract.

The tenderers must prove to have the organizational capacity to carry out the contract. The tenderers must provide a short and comprehensive company profile and describe;

- the organizational structure and corporate experience;
- the tenderer's experience in the field of works and services that are similar to those that are described in Section II; and
- the tenderer's contract management and quality assurance measures.

III.1.3. Technical and professional ability

List and brief description of selection criteria:

Tenderers must prove their technical, and professional capacity to carry out the work subject to this procurement procedure. Tenderers may rely on the capacities of other entities,

regardless of the legal nature of the links which it has with them. In that case, tenderers must prove that they will have at their disposal the resources necessary for the performance of the contract, for example, by producing an undertaking on the part of those entities to place those resources at its disposal. The request must include the proportion of the contract that the tenderer intends to subcontract.

The tenderers must prove to have the organizational capacity to carry out the contract. The tenderers must provide a short and comprehensive company profile and describe

- the organizational structure and corporate experience;
- the tenderer's experience in the field of works and services that are similar to those that are described in Section II; and
- the tenderer's contract management and quality assurance measures.

All tenderers must provide a declaration on honor stating that they fulfil the applicable selection criteria and that they are not in a situation which fulfils an exclusion criterion.

In particular the tenderers shall provide a list of references for similar contracts undertaken during the last five years; the list shall contain values, descriptions of the work, dates, names and contact details of at least the three most recent clients.

For this purpose, tenderers may use the standard declaration for tenderers and tenderers attached to this specification document or provide a European Single Procurement Document (ESPD) containing the necessary declarations.

RWI and Heinemann and Partner Rechtsanwälte PartGmbH as its service provider for this procurement procedure undertake to treat all reference data provided by tenderers with the utmost confidentiality.

Minimum level(s) of standards possibly required:

At least three references for similar contracts undertaken during the last 5 years.

Section IV: Procedure
