Section II: Object

II.1. Scope of the procurement

II.1.1. Title

Architecture assistance for the Mime programme

II.1.2. Main CPV code

72200000 Software programming and consultancy services

II.1.3. Type of contract

Services

II.1.4. Short description

There is a need for 3 senior architects within functional and technical business architecture. They will assist the defence sector and the Mime programme by producing the required architectures and products that ensure the programmes' goal achievement and ensuring that the entity's needs are supported by appropriate ICT services and underlying technology. The architects will support the programme's management and those higher up who are responsible for the architecture work in the defence sector through the systematic establishment and updating of appropriate architecture products in accordance with the current guidelines. The main focus will be on preparing general system architecture that is connected to the business architecture. The resources will model, or together with the architect resources in FMA PRO, ensure that the architecture products are modelled in the defence sector's central architecture database, with the current modelling tool and in accordance with the architecture provisions with the associated rules, hand books, and framework.

II.1.5. Estimated total value

Value excluding VAT: 21 600 000,00 NOK

II.1.6. Information about lots

This contract is divided into lots: no

II.2. Description

II.2.2. Additional CPV code(s)

72300000 Data services, 72400000 Internet services, 72700000 Computer network services

II.2.3. Place of performance

NUTS code: NO082 Viken

II.2.4. Description of the procurement

There is a need for 3 senior architects within functional and technical business architecture. They will assist the defence sector and the Mime programme by producing the required architectures and products that ensure the programmes' goal achievement and ensuring that the entity's needs are supported by appropriate ICT services and underlying technology. The architects will support the programme's management and those higher up who are responsible for the architecture work in the defence sector through the systematic establishment and updating of appropriate architecture products in accordance with the current guidelines. The main focus will be on preparing general system architecture that is connected to the business architecture. The resources will model, or together with the architect resources in FMA PRO, ensure that the architecture products are modelled in the defence sector's central architecture database, with the current modelling tool and in accordance with the architecture provisions with the associated rules, hand books, and framework.

The resources will primarily work with the Mime programme in the section for architecture in FMA PRO, but also for and with other architects who have a role in solving the assignment for FMA PRO. The resources will facilitate and be the driving forces in the work.

The assignment is an extension of an ongoing assignment where the defence sector uses resources from a supplier from a previously signed framework agreement.

II.2.5. Award criteria

Price is not the only award criterion and all criteria are stated only in the procurement documents

II.2.6. Estimated value

Value excluding VAT: 21 600 000,00 NOK

II.2.7. Duration of the contract, framework agreement or dynamic purchasing system

Start: 01/11/2023 End: 01/11/2025

This contract is subject to renewal: no

II.2.10. Information about variants

Variants will be accepted: no

II.2.11. Information about options

Options: yes

Description of options:

1800 hours per architect.

II.2.13. Information about European Union funds

The procurement is related to a project and/or programme financed by European Union funds:

no

II.2.14. Additional information

Section IV: Procedure
