VII.2) **Information about modifications**

VII.2.1) **Description of the modifications**

Nature and extent of the modifications (with indication of possible earlier changes to the contract):

The OGP has extended the current multi supplier framework agreement for the supply of Storage Area Networks (SAN), Network Attached Storage (NAS), servers, converged infrastructure, associated equipment and services to allow public service bodies to continue to procure compute and storage devices until a new framework is put in place.

The Storage Area Networks (SAN), Network Attached Storage (NAS), servers, converged infrastructure, associated equipment and services framework expired on 28 April 2020. The framework is extended until 31 October 2020. The value of the framework extension is EUR 3 625 000.

VII.2.2) **Reasons for modification**

Need for modification brought about by circumstances which a diligent contracting authority/entity could not foresee (Art. 43(1)(c) of Directive 2014/23/EU, Art. 72(1)(c) of Directive 2014/24/EU, Art. 89(1)(c) of Directive 2014/25/EU)

Description of the circumstances which rendered the modification necessary and explanation of the unforeseen nature of these circumstances:

The storage area networks, network attached storage, servers, converged infrastructure, associated equipment and services framework expired on 28 April 2020.

The Covid-19 pandemic seriously impacted day-to-day business operations for all organisations including the OGP.

As a result, the process (which is currently underway) to establish a replacement framework for compute and storage infrastructure devices, software and associated services was delayed. The OGP extended the current Storage Area Networks (SAN), Network Attached Storage (NAS), servers, converged infrastructure, associated equipment and services framework to allow public service bodies to continue to procure compute and storage devices and associated services under the framework until a new framework is put in place. The procurement process for the new framework has completed evaluation stage and is expected to be established in early November 2020.

VII.2.3) **Increase in price**

Updated total contract value before the modifications (taking into account possible earlier contract modifications and price adaptations and, in the case of Directive 2014/23/EU, average inflation in the Member State concerned)

Value excluding VAT: 29 000 000.00 EUR

Total contract value after the modifications

Value excluding VAT: 32 625 000.00 EUR
