II.2.4. Description of the procurement

An agreement shall be entered into that ensures winter preparedness for accessibility and traffic safety on municipal main roads in Bærum municipality. There is a need for round-the-clock emergency preparedness during the winter season each year for:

- snow clearing, milling and gritting at 4 areas,
- salting and snow clearing at 2 areas,
- road grading for all areas (2 teams):
- various operational tasks for all areas (hourly work), such as:
- hourly based snow clearing, milling and gritting,
- snow collection work
- transport of gritting materials to and from silos,
- discharge of surface water and melt water to drains and streams,
- melting of culverts,
- pruning trees and twigs that prevent accessibility and road safety,
- removing earth, rock and avalanches, etc. from the road.
- placing and retrieving snow ploughing sticks.

The stand-by period for snow clearing, milling and gritting (point 1), and road grading (point 3) is each winter season from and including 15.10 until and including 15.04. The stand-by period for salting and associated snow clearing (point 2) and associated operational tasks (point 4) is from and including 01.10 until and including 30.04.

The road network consists of municipal main roads spread all over the municipality.
