30210000 Data-processing machines (hardware)

**II.1.3.**

## **Type of contract**

Supplies

### **II.1.4. Short description**

DTU needs an embedded computing board; a small computer with GPU capabilities capable of running code in the CUDA programming language, that we can use in a more complex setup of hardware that needs data processing. 14 units are needed. An off-the-shelf component with a proven track record is needed as this is for a mature technology. The unit will be used for time critical data processing in the optimized CUDA programming language, meaning that GPU acceleration for calculations is needed.
