Address of the buyer profile: <https://www.ulsterwildlife.org/contact-us>

I.4. Type of the contracting authority

Other type: Environmental non-government organisation

I.5. Main activity

Environment

Section II: Object

II.1. Scope of the procurement

II.1.1. Title

Supply and installation of plastic dams for drain blocking at Ballynahone Bog Special Area of Conservation in Northern Ireland.

Reference number: itt_35768

II.1.2. Main CPV code

77110000 Services incidental to agricultural production

II.1.3. Type of contract

Services

II.1.4. Short description

Ulster Wildlife sought to appoint an experienced economic operator to source and obtain PVCu plastic pile sheeting, transport these materials to Ballynahone and install them at marked locations for the purposes of ecological restoration of Active Raised Bog, a priority Annex I habitat, for the EU INTERREG supported Collaborative Action for the Natura Network

project. Work must be completed by February 2022, to comply with the NI Wildlife Order, and preferably by end of 2021.

II.1.6. Information about lots

This contract is divided into lots: no

II.1.7. Total value of the procurement

Lowest offer: 88 897,90 GBP / Highest offer: 90 483,00 GBP taken into consideration

II.2. Description

II.2.3. Place of performance

NUTS code: UKN0 Northern Ireland

Main site or place of performance: Ballynahone Bog Special Area of Conservation, County Derry, Northern Ireland

II.2.4. Description of the procurement

Ulster Wildlife sought to appoint an experienced economic operator to source and obtain PVCu plastic pile sheeting, transport these materials to Ballynahone and install them at marked locations for the purposes of ecological restoration of Active Raised Bog, a priority Annex I habitat, for the EU INTERREG supported Collaborative Action for the Natura Network project. Work must be completed by February 2022, to comply with the NI Wildlife Order, and preferably by end of 2021. There were 701 dams to be installed. While most will be 4 piles wide, some drains are wider and will require more; these will be marked on site and have been included in our budget estimates. Piling purchased should be PVCu and standard Z-ribbed type.

We require 119 dams at 1.5m deep, equal to 476 sheet piles (of 315mm width) allowing four at each dam AND 582 dams at 2m deep equal to 2,328 sheet piles

The location of each dam has been marked with a blue flag on site and detailed instructions will be provided to the successful contractor about number of piles and size/depth of piles at each drain.

Because of the very fragile nature of these raised bogs, no machinery access is permitted with the exception of low pressure tracked machinery, e.g. Argocat type vehicle.

II.2.5. Award criteria

Price

II.2.11. Information about options

Options: no

II.2.13. Information about European Union funds

The procurement is related to a project and/or programme financed by European Union funds: yes

Identification of the project: INTERREG Va Project ID IVa5013 Collaborative Action for the Natura Network

II.2.14. Additional information
