2.1. Procedure

Title: Marché Investissement électromécanique sur le réseau Non-Structurant

Description: Le présent marché public concerne la fourniture d'équipements ainsi que la réalisation de travaux visant à installer des systèmes de signalisation lumineuse, de signalisation rétroréfléchissante, d'éclairage (autonome et électrique) et de points d'alimentation électrique. Il inclut également la modernisation et la mise en conformité des armoires basse tension (BT) et des cabines haute tension (HT) existantes. Ces travaux concernent principalement les routes régionales, le réseau RAVeL, les cyclostrades ainsi que d'autres voies publiques desservant des ouvrages d'art routiers situés sur le réseau non structurant en Région wallonne. Ce marché est conclu en partenariat avec le SPW Agriculture, Ressources Naturelles et Environnement (ARNE) pour certaines installations d'alimentation électrique des bâtiments techniques et des cantonnements gérés par l'ARNE. Cependant, il n'est pas exclu que, dans certains cas spécifiques, certains équipements relevant du présent marché soient situés sur d'autres catégories de voiries, telles que les voiries communales situées à proximité du réseau routier régional
