II.1.4. Short description

Vista la petición de la dirección de operaciones e ingeniería del Banco de Sangre y Tejidos sobre la contratación de un suministro de gases medicinales e industriales más el mantenimiento integral de las instalaciones de LN2 para el Banco de Sangre y Tejidos (BST). Uno de los elementos básicos de que dispone el BST es la criopreservación especial de los productos que tiene almacenados (cordones, tejidos, sangre, ...) y, por tanto, precisa para la conservación de los mismos los gases medicinales para mantener en óptimas condiciones todos sus productos. Es necesaria la contratación para este ejercicio ya que sin este material no se puede realizar de forma óptima la actividad asistencial que tiene encomendada. Este expediente es de carácter mixto, ya que contempla el suministro de gases y también el mantenimiento de las instalaciones. Dado que la partida presupuestaria de suministro es considerablemente mayor que el servicio, se considera una contratación de suministros.
